**QUESTION 1**

A System Manager must collect data from three remote office sites, each with its own email server and file shares. For a new case, all data must be collected from the remote offices and processed in a single Symantec Clearwell eDiscovery Platform 7.x at the organization's headquarters. Data transfer between each office requires connection over a VPN link. The VPN requires reauthentication every 6 hours. How should the System Manager collect the data?

- A. configure remote collection to the headquarters' Symantec Clearwell eDiscovery 7.x environment via proxy server licensed for Collections
- B. deploy Symantec Clearwell eDiscovery 7.x servers at each office licensed only for Collections, and create Collection Sets for transport to headquarters
- C. deploy Symantec Clearwell eDiscovery 7.x servers licensed only for Collections outside the firewall at headquarters, with the `esa.collections.wan.low_bandwidth` property set
- D. configure the Symantec Clearwell eDiscovery 7.x server at headquarters to collect using the OnSite Collector, with hard drives containing the Collector sent to each remote office

Correct Answer: B

---

**QUESTION 2**

Which tool should be used to send logs to Symantec support if the Symantec Clearwell eDiscovery Platform 7.x is down and the application interface is unavailable?

- A. Clearwell Utility
- B. Property Browser
- C. Utility Node Manager
- D. Services Manager

Correct Answer: A

---

**QUESTION 3**

Legal Counsel asks the System Manager to establish the validity of the collections performed on data that was searched and produced for a case. Which report should the System Manager create to provide Legal Counsel with the required information?

- A. Collection Task History report
- B. Error File List report
- C. Collection Task Defensibility report
- D. Collection Validity report

Correct Answer: C

---

#### QUESTION 4

What will happen to a collection task if the account field is left blank when an Exchange source is added to a case?

- A. Collection will fail with authentication error.
- B. Collection will run using the ESAApplicationService account permissions.
- C. Collection will run using the ESAExchangeCrawlerService account permissions.
- D. Collection will run using the ESAExchangeRetrieverService account permissions.

Correct Answer: B

---

#### QUESTION 5

A consultant will visit a customer to implement Symantec Clearwell eDiscovery Platform 7.x. What should the consultant check prior to the customer visit?

- A. product updates
- B. places to stay and eat
- C. competitive products
- D. scope of the project

Correct Answer: B
