QUESTION 1

Which function does each IT Management Suite 8.1. component perform?

Match the components on the left to the correct function on the right by clicking on the component and dragging it to the appropriate function.

Select and Place:

Component		Function
SQL Analysis Services	<input type="text"/>	Provides a database for OLAP reporting
Notification Server	<input type="text"/>	Presents business level reports
SQL Database Services	<input type="text"/>	Provides a framework for IT Management Suite 8.1 functionality
Symantec Installation Manager	<input type="text"/>	Allows for the management of licenses
Site Server	<input type="text"/>	Communicates with the endpoints and the management server
Symantec Management Agent	<input type="text"/>	Facilitates communication with the management server
SQL Reporting Services	<input type="text"/>	Hosts the Symantec CMDB

Correct Answer:

Component		Function
	SQL Reporting Services	Provides a database for OLAP reporting
	Symantec Management Agent	Presents business level reports
	Symantec Installation Manager	Provides a framework for IT Management Suite 8.1 functionality
	Site Server	Allows for the management of licenses
	SQL Database Services	Communicates with the endpoints and the management server
	Notification Server	Facilitates communication with the management server
	SQL Analysis Services	Hosts the Symantec CMDB
