QUESTION 1

You are auditing a current storage environment that is not utilizing storage tiering. The information gained from the audit is to be used in a new storage tiering design that will have 4 tiers (Tiers 1-4). You need to determine the location for archive data which needs to be accessible but is not used heavily.

Where should you store this data?

- A. Tier 1: High-end storage arrays with fast, reliable network connections.
- B. Tier 2: High-end arrays, but performance is not a priority.
- C. Tier 3: Mid-range to low-end storage arrays with fast, reliable network connections.
- D. Tier 4: low-cost media, such as tape, with little consideration given to performance.

Correct Answer: C

QUESTION 2

You have executed the `vxvg -g diskgroup adddisk disk_name=` command.

Which switch needs to be added to force VxVM to take the disk media name of the failed disk and assign it to the new replacement disk?

- A. -force
- B. -k
- C. -f
- D. -assign

Correct Answer: C

QUESTION 3

You are responsible for managing Veritas Enterprise Administrator. You are in the process of creating a new disk group. You first initialize an uninitialized disk and then create a new disk group using the disk you initialized. You want to ensure that this disk is mounted when you boot the system.

What should you do next?

- A. Mount the volume
- B. Create a new volume on the disk
- C. Add the disk to the disk group
- D. Verify the disk name in the Object Tree

Correct Answer: B

QUESTION 4

When you attempt to start the RAID-5 volume, you are prompted with an error message "VxVM ERROR V-5-1-1237 Volume r5vol is not startable; some subdisks are unusable and the parity is stale." You want to remove this error and start the RAID-5 volume.

How will you ensure that you do not encounter this error again?

- A. Use a single RAID-5 log plex in RAID-5 volumes.
- B. Change the subdisks.
- C. Use two or more RAID-5 log plexes in RAID-5 volumes.
- D. Reattach the subdisks.

Correct Answer: C

QUESTION 5

After installing Veritas Enterprise Administrator, you start the VEA with the profile name that you have specified. When you click the Console View, what does it display? (Select two.)

- A. Active Events
- B. Volume Summary
- C. Alerts
- D. Disk History

Correct Answer: AC
