Correct Answer: D

QUESTION 3

In which language are SSO login scripts written?

- A. Perl
- B. TCL
- C. VBScript
- D. Visual Basic for Applications (VBA)

Correct Answer: B

QUESTION 4

Which server environment can use a two-phase eTrust SSO client?

- A. Citrix
- B. UNIX NFS Server

C. Windows Terminal Server

D. Windows Advanced Terminal Server

Correct Answer: A

QUESTION 5

When directives are used in eTrust SiteMinder Authentication Schemes, they are typically placed at the top of an FCCs (Forms Credential Collector) source file. The format of all directives is name=value. For example, @username=%USER% or @password=%PASSWORD%. When you add the entry @smretries=0 following these two directives in a file, what are you telling eTrust SiteMinder to do?

A. Do not attempt a retry if a username is incorrect.

B. Do not attempt a retry if the password is incorrect.

C. Attempt an infinite number of retries if either entry is incorrect.

D. Do not attempt a retry if both the username and the password is incorrect.

Correct Answer: C
