QUESTION 1

Within the Cascade Pilot GUI, filtered items are often indicated:

- A. With red text.
- B. With yellow text.
- C. With a funnel icon.
- D. With a hash-mark icon.

Correct Answer: C

QUESTION 2

What types of Layer-7 Application Signatures are available within the Cascade Profiler GUI? (Select 3)

- A. By URL
- B. By Regular Expression
- C. By Packet Start offset
- D. By ASCII String
- E. By Hex String
- F. By Error Code Type

Correct Answer: ADE

QUESTION 3

When the Discovery wizard presents all newly discovered application-ports as candidates to be included as segments for monitoring within a Service, which of the following actions will save the segment as part of the Service, but will not implement monitoring of the traffic? This action will also suppress the same application-ports from being presented in any future discovery.

- A. Merge
- B. Add
- C. Drop
- D. Delete
- E. Discover

Correct Answer: C

QUESTION 4

When defining a Layer 4 application signature, what are the valid options for flows already tagged with a Layer 7 application signature? (Select 3)

- A. Always remove the layer 7 tag and apply the layer 4 tag instead.
- B. Unclassified remove the layer 7 tag and apply the layer 4 tag only if the flow is already tagged unclassified.
- C. Unknown remove the layer 7 tag and apply the layer 4 tag only if the flow is already tagged unknown.
- D. Unknown/Unclassified remove the layer 7 tag and apply the layer 4 tag only if flow is tagged as both unknown and unclassified.
- E. Unknown/Unclassified remove the layer 7 tag and apply the layer 4 tag only if flow is tagged as unknown or unclassified.

Correct Answer: ACE

QUESTION 5

In order to create an interactive view on Cascade Pilot:

- A. Select two views from the views panel using control-click then right click on one and select "Create Interactive View" from the drop-down menu.
- B. After a Drill-Down from one view to another, right click on the Drill-Down view in the sources panel and select "Create Interactive View" from the drop-down menu.
- C. Select any item (such as a host IP Address, Port or Protocol name) in the main workspace and right click on the item, then select "Create Interactive View" from the drop-down menu.
- D. Select any view in the views panel, right-click it and select "Create Interactive View" from the drop-down menu.
- E. Open the filters panel, apply an existing or new filter to the view then select "save as interactive view" from the home menu.

Correct Answer: B
