Cloud_vSphere_Machine_1

LINE 54

No placement exists that satisfies all of the request requirements. See if

An administrator is testing a newly created Windows 2016 cloud template in Cloud Assembly. While using the Test option from within the cloud template, the attached error appears.

What is a possible cause for this error message? (Choose the best answer.)

- A. During the machine allocation phase, Cloud Assembly could not find enough resources.
- B. The network profile created did not have the correct capability tag.
- C. The administrator did not associate a cloud zone to the project.
- D. The administrator did not add a cloud account.

Correct Answer: C

QUESTION 4

On which platform is CloudBase-Init used to execute user-provided scripts? (Choose the best answer.) Linux

- A. Linux
- B. MacOS
- C. Kubernetes
- D. Windows

Correct Answer: D

QUESTION 5

An administrator is trying to synchronize a new cloud template into the App-Dev project. The administrator copies the cloud template code directly from Cloud Assembly into a text file and uploads it into the Github repository so that it can be synchronized to the App-Dev project.

When the administrator clicks 'Synch Repos', a new cloud template does not appear.

Which step must the administrator take to allow it to synchronize from the Github repository?

- A. Add the name and version to the cloud template YAML code.
- B. Clone the cloud template
- C. Release the cloud template
- D. Upload the cloud template

Correct Answer: A
