QUESTION 1

DRAG DROP

Integration of VMware Horizon resources with Workspace ONE consists of several high-level steps.

Drag and drop the integration steps on the left into the correct sequential order on the right.

Select and Place:

Integration Step	Correct Sequence
Create one or more virtual apps collections for the VMware Horizon pods in Workspace ONE Access	Step 1
Configure Workspace ONE Access to use the same AD domain as VMware Horizon	Step 2
Configure the SAML authenticator on the Horizon Connection Server	Step 3
Verify that users see assigned resources in Workspace ONE catalog and when clicked the resource triggers the SAML SSO process	Step 4
Synchronize Horizon AD users to the Workspace ONE Access service using Directory Sync	Step 5

Correct Answer:

Integration Step	Correct Sequence	
	Step 1	Create one or more virtual apps collections for the VMware Horizon pods in Workspace ONE Access
	Step 2	Configure Workspace ONE Access to use the same AD domain as VMware Horizon
	Step 3	Synchronize Horizon AD users to the Workspace ONE Access service using Directory Sync
	Step 4	Configure the SAML authenticator on the Horizon Connection Server
	Step 5	Verify that users see assigned resources in Workspace ONE catalog and when clicked the resource triggers the SAML SSO process

1- Configure Workspace ONE Access to use the same AD domain as VMware Horizon 2- Synchronize Horizon AD users to the Workspace ONE Access service using Directory Sync 3- Create one or more virtual apps collections for the VMware Horizon pods in Workspace ONE Access 4- Configure the SAML authenticator on the Horizon Connection Server 5- Verify that users see assigned resources in Workspace ONE catalog and when clicked the resource triggers the SAML SSO process

QUESTION 2

An administrator has been tasked with disabling USB redirection for all finance users in the virtual desktop environment.

Which of the following options would meet the requirement?

A. Create a new golden image, deselect USB redirection at the Horizon agent installation, and push the new image to all desktop pools.

B. Open the Horizon Console and m Global Policies set the USB Access Policy to disabled.

C. Open the Horizon Console and in Desktop settings set the USB Access Policy to disabled for all finance users.

D. Create a Horizon Smart Policy, disable USB redirection, and set a condition matching all finance users.

Correct Answer: D

In Dynamic Environment Manager (formerly called User Environment Manager), the Horizon Smart Policies feature provides a single location for managing the user experience on Horizon 7, Horizon Cloud, and Horizon Apps. With the 9.10 release, the addition of computer-based policies means you can you configure general Computer Environment settings, as well as remote experience settings such as Flash multi-media redirection, integrated printing, USB redirection, and more. https://docs.vmware.com/en/VMware-Horizon-7/7.13/horizon-remote-desktop-features/GUID-473D8FD8-DB10-408F-A2C1-029E4CFC5D9E.html

QUESTION 3

An administrator is leveraging PCoIP protocol in their Horizon environment and wants to distribute clients to end users that have the smallest footprint possible with no local operating system. Which client type satisfies these requirements?

A. Teradici based zero clients

B. Windows embedded thin client

C. MacOS Client

D. Android based thin client

Correct Answer: A

QUESTION 4

An administrator wants to ensure that user\\'s desktop experience is consistent regardless of the desktop they connect to. What solution should be used to meet the requirement?

A. Persona Management

B. Dynamic Environment Manager

C. Local Profiles

D. Temporary Profiles

Correct Answer: B

QUESTION 5

Which three options are required to use an instant-clone pool? (Choose three.)

A. VMware vSphere

B. Horizon Intelligence

C. Horizon Composer

D. Horizon Connection Server

E. Horizon Agent

F. High speed Internet Access

Correct Answer: ADE

Reference: https://docs.vmware.com/en/VMware-Horizon/2106/virtual-desktops/GUID-AD6D9E9B-5EDD-4B0F-A65C-7D4393028420.html

View composer is used for Linked Clones not Instant Clones. Moreover, Linked Clones is a deprecated technology and no longer supported after Horizon 8 2006. A high-speed connection is irrelevant here and the other two options are not requirements.
