QUESTION 1

An administrator requires a report on the chassis type of their Windows desktop devices. The information is currently not showing as a table entry in Workspace ONE Intelligence. What does the administrator need to create to have this information show in Workspace ONE Intelligence?

- A. profile
- B. product
- C. sensor
- D. custom attribute

Correct Answer: A

QUESTION 2

Which two steps would an administrator complete to enable auto-discovery for their Workspace ONE UEM environment? (Choose two.)

- A. Enter the email domain when installing the AirWatch Cloud Connector.
- B. Verify the domain by accepting the link in the email that registered auto-discovery.
- C. Register email domain within Workspace ONE UEM.
- D. Enter the email domain when establishing directory services.
- E. Email auto-discovery@workspaceone.com with the domain the administrator wants to register.

Correct Answer: BC

QUESTION 3

A company using Mobile SSO would like to avoid deploying an additional connector for Workspace ONE. They currently do not have a use case for Virtual Apps or advanced authentication such as kerberos, RDA SecureID or Radius. Which configuration can be used to sync users and groups with a single connector of Workspace ONE?

- A. Directory Sync from Workspace ONE UEM to Workspace ONE Access
- B. Directory Sync from Workspace ONE Assist to Workspace ONE Access
- C. Directory Sync from Workspace ONE Access to Workspace ONE Unified Access Gateway
- D. Directory Sync from Workspace ONE Intelligence to Workspace ONE Access

Correct Answer: A

QUESTION 4

A company has purchased a Workspace ONE UEM SaaS environment and are planning the on-premises servers and services that will be required. A primary use case is allowing AD authenticated end users to access enterprise SharePoint documents through the Workspace ONE Content application.

Which two on-premises servers/services should the company plan for? (Choose two.)

- A. Unified Access Gateway
- B. Workspace ONE UEM API
- C. Secure Email Gateway
- D. AirWatch Cloud Connector
- E. AirWatch Cloud Messaging

Correct Answer: AD
