### QUESTION 1

When will vSphere Data Protection delete the expired backup image of a Platform Service Controller?

- A. After the expired backup image is restored.
- B. During the next backup window following expiry.
- C. During the next maintenance window following expiry.
- D. Immediately after the retention period has expired.

Correct Answer: D

<https://docs.vmware.com/en/VMware-vSphere/6.0/vmware-data-protection-administration-guide-60.pdf> `During maintenance periods, VDP examines the backups in the appliance and evaluates whether the backup retention period has expired. If it has expired, VDP removes the expired backup from the appliance.`

---

### QUESTION 2

Upgrading vCenter Server with Microsoft SQL database fails with the following error message:

```
The DB User entered does not have the required permissions
needed to install and configure vCenter Server with the selected
