QUESTION 4

A user browses to a company website that is categorized as "Business and Industry" and contains a Facebook post. The user cannot see the Facebook post because the category "Social Networking" is blocked. Which configuration allows the user to see the Facebook post?

A.

A web site may embed or refer to content that is categorized as a different category, or that is considered an application. For example, a News web site could contain content categorized as Streaming Video, and the action selected for its own category/application, regardless of what web site it is embedded in. Use this table to set exceptions (e.g., to permit all content referred from News web sites, or from a custom category.)

☑ Enable Referrer Exceptions

Set Exception for Content Referred by These Categories:	Set Exception for This Referred Content:	
Business and Industry	selected embedded / referred content ⌄	Categories: Social Networking Applications: Click to select applications...

B.

A web site may embed or refer to content that is categorized as a different category, or that is considered an application. For example, a News web site could contain content categorized as Streaming Video, and the action selected for its own category/application, regardless of what web site it is embedded in. Use this table to set exceptions (e.g., to permit all content referred from News web sites, or from a custom category.)

☑ Enable Referrer Exceptions

Set Exception for Content Referred by These Categories:	Set Exception for This Referred Content:
Social Networking	All embedded / referred content ⌄

C.

A web site may embed or refer to content that is categorized as a different category, or that is considered an application. For example, a News web site could contain content categorized as Streaming Video, and the action selected for its own category/application, regardless of what web site it is embedded in. Use this table to set exceptions (e.g., to permit all content referred from News web sites, or from a custom category.)

☑ Enable Referrer Exceptions

Set Exception for Content Referred by These Categories:	Set Exception for This Referred Content:	
Social Networking	All embedded / referred content except ⌄	Categories: Business and Industry Applications: Click to select applications...

D.

A web site may embed or refer to content that is categorized as a different category, or that is considered an application. For example, a News web site could contain content categorized as Streaming Video, and the action selected for its own category/application, regardless of what web site it is embedded in. Use this table to set exceptions (e.g., to permit all content referred from News web sites, or from a custom category.)

☑ Enable Referrer Exceptions

Set Exception for Content Referred by These Categories:	Set Exception for This Referred Content:	
Business and Industry	All embedded / referred content except ⌄	Categories: Social Networking Applications: Click to select applications...

A. Option A

B. Option B

C. Option C

D. Option D

Correct Answer: A
