#### QUESTION 1

Which command is used to edit and display the running Linux Virtual Server (LVS) configuration? (Specify ONLY the command without any path or parameters.)

A. ipvsadm

Correct Answer: A

---

#### QUESTION 2

Which of the following tasks are parts of a hypervisor's responsibility? (Choose TWO correct answers.)

A. Create filesystems during the installation of new VM guest operating systems.

B. Provide host-wide unique PIDs to the processes running inside the VMs in order to ease interprocess communication between virtual machines.

C. Map the resources of virtual machines to the resources of the host system.

D. Ensure isolation and eliminate any interference between virtual machines.

E. Manage authentication to network services running inside a virtual machine.

Correct Answer: CD

---

#### QUESTION 3

Which of the following device classes are commonly used STONITH devices? (Choose THREE correct answers.)

A. Uninterruptable Power Supplies, UPS

B. CPU frequency management tools

C. Blade Control Devices

D. Remote Management Services like iLO or DRAC

E. Local node storage

Correct Answer: ACD

---

#### QUESTION 4

Which of the following statements are true regarding the handling of a hardware error in a high availability cluster? (Choose THREE correct answers.)

- A. High availability provides automatic recovery from software errors only and cannot mitigate hardware issues.
- B. After the cluster deals with an error, no manual actions are required to bring the cluster back to normal operation.
- C. Erroneous components are physically turned off as they are in an undefined state.
- D. Services are restarted on or redirected to other cluster nodes.
- E. The cluster management components monitor the health of all cluster components.

Correct Answer: CDE

---

#### QUESTION 5

When KVM is launched with the parameter `-boot order=n`, which of the following devices will be searched for a bootable operating system?

- A. All floppy, CDROM, and hard disk drives in that order.
- B. No devices are searched and the user is prompted to choose the boot device.
- C. All network interfaces attached to the VM.
- D. All hard disks and no other devices.
- E. No devices are searched in order to support directly booting a Linux kernel.

Correct Answer: C
