### QUESTION 1

Which statement most accurately describes the major difference between Automatic Alternative Rom (AAR) and Automatic Route Selection (ARS) in a typical installation?

- A. AAR routes calls over a public network; ARS routes calls over a private network.
- B. AAR routes calls over a private network; ARS routes calls over a public network.
- C. AAR chooses routes automatically; ARS chooses routes according to pre programmed, best-choice parameters.
- D. AAR chooses routes automatically; ARS chooses routes according to a manually administered route plan.

Correct Answer: B
