QUESTION 1

Refer to the exhibit. An engineer is confining class of control for a user in Cisco UCM. Which change will ensure that the user is unable to call 2143?

The screenshot shows two parts of the Cisco Unified CM Administration interface. The top part is the 'Region Configuration' page, which includes a table for 'Region Relationships'. The bottom part is the 'Audio Codec Preference List Configuration' page, showing details for a list named 'CCMP-COLLAB'.

Region	Audio Codec Preference List	Maximum Audio Bit Rate	Maximum Session Bit Rate for Voice Calls	Maximum Session Bit Rate for Immersive Video Calls
REGION1	CCMP-COLLAB	64 kbps	384 kbps	2147483647 kbps
REGION2	CCMP-COLLAB	64 kbps (G.722, G.711)	Use System Default (384 kbps)	Use System Default (2000000 kbps)
NOTE: Region not displayed	Use System Default	Use System Default	Use System Default	Use System Default

The bottom part of the screenshot shows the 'Audio Codec Preference List Configuration' page for the list 'CCMP-COLLAB'. The 'Status' is 'Ready'. The 'Audio Codec Preference List Information' section shows the list name 'CCMP-COLLAB', description 'CCMP-COLLAB', and a list of codecs: G.722 48k, G.711 8-Law 64k, G.729 BE, and G.711 4-Law 64k.

- A. Change line partition to Partition_A
- B. Change line CSS to only contain Partition_B
- C. Set the user's line CSS to
- D. Set the user's device CSS to

Correct Answer: D

QUESTION 2

Due to service provider restriction, Cisco Unified Communications Manager cannot send video in the SDP. Which two options on Cisco Unified CM are configured to suppress video in the SDP of outgoing invites? (Choose two.)

- A. Check the Send send-receive SDP in mid-call INVITE check box on the SIP trunk SIP profile.
- B. Add the audio forced command to voice service voip on the Unified Border Elements.
- C. Check the Retry Call as Audio on the SIP trunk
- D. Set Video bandwidth in the Region settings to 0.
- E. Change the Video Capabilities dropdown on the endpoint to Disabled.

Correct Answer: CD

The reason is it has to be only in CUCM per the question. You would create a specific Region relationship for the Device Pool applied to the trunk that cannot handle video and thus change the Maximum Video Bandwidth to 0 while setting retry a video call as audio on the Phone Configuration (default setting is this is already checked).

QUESTION 3

How are E164 called-party numbers normalized on a globalized call-routing environment in Cisco Unified Communications Manager?

- A. Normalization is achieved by stripping or translating the called numbers to internally used directory numbers.
- B. Normalization is achieved by setting up calling search spaces and partitions at the SIP trunks for PSTN connection.
- C. Call ingress must be normalized before the call being routed.
- D. Normalization is not required.

Correct Answer: A

QUESTION 4

An engineer must configure switch port 5/1 to send CDP packets to configure an attached Cisco IP phone to trust tagged traffic on it's access port.

Which command is required to complete the configuration?

Router# configure terminal Router(config)# interface gigabitethernet 5/1 Router(config-if)# description Cube E42.421-5965

- A. platform qos trust extend cos 3
- B. platform qos trust extend
- C. platform qos extend trust
- D. platform qos trust extend cos 5

Correct Answer: B

QUESTION 5

A Cisco UCM administrator wants to enable the Self-Provisioning feature for end users. Which two prerequisites must be met first? (Choose two.)

- A. End users must have a primary extension.

- B. End users must be associated to a user profile or feature group template that includes a universal line template and universal device template.
- C. End users must have a secondary extension.
- D. End users must belong to Standard CCM Admin Users group, the Standard CCM End Users group, and the Standard CCM Self-Provisioning group.
- E. Cisco Extended Functions service must be running.

Correct Answer: AB
