QUESTION 1

As a Service Broker administrator, you have been asked to meet these requirements:

All released cloud templates must be imported to Service Broker.

Newly released cloud templates must be automatically synchronized with Service Broker.

All cloud templates must be automatically published to the service catalog.

Which two options must be configured to meet the requirements? (Choose two.)

- A. Configure content sharing using Content Sources option
- B. Create content source using VMware Cloud Templates option but do not configure content sharing
- C. Create content source using CloudFormation Template option
- D. Configure content sharing using All Content option
- E. Create content source using VMware Cloud Templates option

Correct Answer: AE

QUESTION 2

The Service Owner of a vRealize Automation solution has requested that public cloud use is restricted to hosting workloads only. The configured cloud zones for all projects will be stated as follows:

vSphere AWS Azure

Which FaaS provider should the architect recommend for generic extensibility actions to meet the Service Owner's requirement?

- A. Auto Select
- B. On-Prem
- C. Microsoft Azure
- D. Amazon Web Services

Correct Answer: B

QUESTION 3

An architect is responsible for designing a new Operations Management solution for a customer. The customer has provided the following high-level information about their existing VMware Software Defined Data Center (SDDC) environment:

The existing environment is located within a single geographical region.

The customer already has deployed a vSphere-based virtualization solution that spans two well-connected physical locations.

The customer has recently upgraded all of their licenses to VMware vCloud Suite Advanced subscription.

The customer has already successfully deployed and configured vRealize Operations 8.x within the VMware SDDC.

The customer would like to ensure that both specific event monitoring data and operations monitoring for all of the VMware SDDC can be consolidated into a single user interface.

Which three recommendations should the architect make to meet the requirements? (Choose three.)

- A. Configure vSphere integration in vRealize Log Insight 8.x
- B. Configure vRealize Operations 8.x and vRealize Log Insight 8.x integration
- C. Deploy vRealize Log Insight 8.x
- D. Configure vRealize Operations 8.x and vRealize Log Insight Cloud integration
- E. Deploy vRealize Log Insight Cloud
- F. Configure vRealize Operations 8.x and vRealize Operations Cloud Federation

Correct Answer: BDF

QUESTION 4

An architect is designing a vRealize Log Insight cluster for an organization with the following requirements:

The organization has an external load balancer available to provide load balancing for various requirements.

Due to budget constraints the organization need to reuse existing environment as much as possible.

What should the architect choose as the load balancing solution for the vRealize Log Insight cluster?

- A. Use the integrated load balancer
- B. Deploy a new external load balancer
- C. Use the existing external load balancer
- D. Use both integrated and external load balancers

Correct Answer: A

QUESTION 5

The operations team is onboarding new interns in Active Directory. The interns need to work in the company\\'s vRealize Operations environment while maintaining corporate security compliance. The intern Active Directory group should only have PowerUser role to a specific vCenter cluster and ReadOnly for all other objects.

Which option would meet the requirements?

- A. Create new Active Directory accounts and import the intern user accounts. Create a new role for the interns and assign appropriate permissions on objects.
- B. Add the interns to a new vRealize Operations Active Directory Group. Import the Active Directory group and grant access to relevant objects and all actions for the specific vCenter cluster.
- C. Add the interns to the existing vRealize Operations administrators Active Directory group and grant access to relevant objects and all actions for the specific vCenter cluster.
- D. Create a new Active Directory group for interns. Synchronize intern Group, create a new role for the interns and assign appropriate permissions on objects.

Correct Answer: A
