### QUESTION 1

An architect has been asked to evaluate the existing Active Directory infrastructure to implement a Horizon 7-based virtual Desktop infrastructure. The Active Directory Admin helped the architect create the attached exhibit related to the current Active Directory.

The customer specified these requirements:

1.  
Extend the same Horizon 7 infrastructure to a 20 User Organization from Stand-Alone Domain.
2.  
Two users from the Stand-Alone Domain must have Administration access to Horizon View Infrastructure.

The architect has been asked to recommend Active Directory changes with a constraint of least possible trust relationship and credential duplication to meet the additional requirement.

Referring to the exhibit, which two recommendations would enable Active Directory infrastructure to meet requirements?

- A. Configure Secondary credential for View administration users only.
- B. Establish two-way trust relationship between Parent Domain A and Stand-Alone Domain.
- C. Establish one-way trust relationship between Parent Domain A and Stand-Alone Domain.
- D. Configure Secondary credential for View Desktop users only.
- E. Configure Secondary credential for View Desktop users and View Administration Domain.

Correct Answer: AE

---

### QUESTION 2

A company has developed a new in-house web application supporting SAML Federation. The CIO has asked that all sales users access the application using the single sign-on option. Users will access this application from several different locations globally. The company has two datacenters based in the US and UK.

Which VMware technology can an architect recommend to meet the requirements?

- A. VMware User Environment Manager
- B. VMware App Volumes
- C. VMware Identity Manager
- D. VMware Horizon View

Correct Answer: D

---

### QUESTION 3

Company A decided to start using GPO to optimize PCoIP across all their Horizon 7 Desktop pools. During the Proof of Concept (POC) on the local network, there were no performance issues. The company decided to move to UAT. Access from the outside network needs to be tested. Some sales staff traveling to overseas countries, where network speed is low, have reported that the screen quality is degraded during usage.

Which setting should be recommended to retain screen quality, regardless of a user's connection?

- A. Configure the PCoIP session bandwidth floor value.
- B. Configure PCoIP client image cache size policy.
- C. Turn on Build-to-Lossless feature.
- D. Configure the maximum PCoIP bandwidth session.

Correct Answer: C

---

### QUESTION 4

The VMware Horizon end users of an organization use applications provided through VMware App Volumes. The organization's security policy requires that only users in specific Active Directory groups, and on the headquarters LAN, access some of the applications in one App Volumes Appstack.

Which VMware technology accomplishes this requirement?

- A. App Volumes AppToggle
- B. VMware NSX

C. vRealize Operations for Published Applications

D. User Environment Manager

Correct Answer: B

## QUESTION 5

The IT team for a company wants to deploy VMware Horizon and allow end users to access their Horizon Windows desktops using Windows laptops, Android and iOS mobile phones, and Android and iOS tablets with the following requirements:

1.  
High data security
2.  
Low client bandwidth
3.  
Low client processor overhead
4.  
Low storage space
5.  
High image quality

Which Horizon desktop pool meets these requirements?

- A. Instant Clones Refresh OS disk after logoff: enabled Default display protocol: PCoIP Allow users to choose protocol: disabled Adobe Flash throttling: conservative
- B. Linked Clones Refresh OS disk after logoff: enabled Default display protocol: Blast Extreme Allow users to choose protocol: disabled Adobe Flash throttling: conservative
- C. Linked Clones Refresh OS disk after logoff: enabled Default display protocol: RDP Allow users to choose protocol: disabled Adobe Flash throttling: aggressive
- D. Instant Clones Refresh OS disk after logoff: enabled Default display protocol: RDP Allow users to choose protocol: disabled

Correct Answer: A
