-  **365 Days** Free Update
-  **800,000+** Satisfied Customers

QUESTION 1

Which of the following configuration steps are mandatory for IPv4 PIM ASM to work? (Choose two)

- A. Configure PIM on core and source facing interfaces
- B. Configure PIM on access facing interfaces
- C. Configure RP statically or via BSR
- D. Create and apply register and join policies
- E. Define the rpf-table

Correct Answer: AC

QUESTION 2

Which of the following statements best describes the behavior seen in the network when a receiver joins a multicast channel in the PIM ASM network shown in the exhibit?

- A. Both Router B and Router C will propagate a PIM (*, G) Join to the RP when a receiver joins
- B. Only Router B will propagate a PIM (*,G) Join to the RP when a receiver joins
- C. Only Router C will propagate a PIM(\G) Join to the RP when a receiver joins
- D. Depends on the next hop for RP in Router D's RPF table

Correct Answer: D

QUESTION 3

Which MDT types are used in a Sparse Mode network? (Choose two)

- A. Shared Path Tree
- B. Source Path Tree

- C. Spanning Tree
- D. Special Path Tree
- E. Switchover Path Tree

Correct Answer: AB

QUESTION 4

Which of the following is NOT a benefit of multicast for delivering data to multiple receivers?

- A. Its data delivery is more efficient than unicast and broadcast.
- B. It is more scalable than unicast and broadcast.
- C. It suits VoD (Video on Demand) services very well.
- D. It suits BTV (Broadcast TV) services very well.

Correct Answer: C

QUESTION 5

Which of the following best describes the impact of an RP failure in a PIM ASM network?

- A. All existing multicast traffic is stopped immediately, as the PIM ASM network must have an RP to transmit the multicast traffic.
- B. The multicast traffic will be impacted, but not immediately, as multicast routers will not discover the RP failure until the keep alive timer expires.
- C. No impact at all, as an RP is not required in a PIM ASM network.
- D. The traffic is not impacted if the multicast traffic flows have already been established, and the traffic flow does not involve the RP in the path.

Correct Answer: D
