Call Home Message Formats The Call Home feature offers the following message formats:

Short Text -- Suitable for pagers or printed reports.

Plain Text -- Full formatted message information suitable for human reading.

XML -- Matching readable format using Extensible Markup Language (XML) and Adaptive Markup

Language (AML) document type definitions (DTDs).

The XML format enables communication with the Cisco TAC. For user- defined destination profiles, the format options are long-text, short-text, or XML. The default is XML. For the predefined Cisco TAC profile, only XML is allowed.
