QUESTION 1

What are three key topics that should be covered in a Hybrid Cloud Readiness Assessment? (Choose three.)

A. Design of critical application configurations.

B. State of the current vSphere environment.

C. Backup and recovery operations.

D. Customer application licensing costs.

E. Available bandwidth for connecting to a cloud provider.

F. Port assignments for virtual switches.

Correct Answer: ADE

QUESTION 2

What are two primary differences between an Elastic IP address and a Public IP address assignment? (Choose two.)

A. A Public IP address assignment is associated with an AWS account.

B. A Public IP address assignment could manually be attached and detached from an instance.

C. An Elastic IP address has a cost associated with it.

D. An Elastic IP address assignment is associated with an AWS account.

E. An Elastic IP address assignment will be persistent during the Stop/Start process of an instance while a Public IP address would be dynamically reassigned.

Correct Answer: BD

It can be assigned to any network interface, which can be attached or detached from an instance.

An Elastic IP address is associated with your AWS account.
