QUESTION 1

Workspace ONE UEM sends the following notification about a Windows 10 device "A Health Attestation sample has not been received from the device."

What can cause this issue?

- A. The device does not support UEFI Secure Boot.
- B. Health attestation is only working with ENS.
- C. The device is using the wrong windows version.
- D. Device Health Attestation is not supported on Windows devices.

Correct Answer: C

QUESTION 2

Which service should be running when facing assignment errors on an on-premises installation?

- A. AirWatch Group Integration service
- B. AirWatch Smart Group service
- C. AirWatch Smart Integration service
- D. AirWatch Smart Grouping service

Correct Answer: A

QUESTION 3

A user is decommissioning older iOS devices that were enrolled using the Apple Device Enrollment Program (DEP) in the Workspace UEM environment.

Which tasks need to be executed?

- A. Delete the device from Workspace ONE UEM and it will be automatically disassociated from DEP.
- B. Perform an enterprise wipe, then Workspace ONE UEM will automatically disassociate the device from DEP.
- C. Disassociate the device in the DEP and from the MDM server, then Workspace ONE UEM syncs the device state automatically.
- D. Disassociate the device in the DEP and from the MDM server, then sync iOS devices manually in Workspace ONE UEM.

Correct Answer: C

QUESTION 4

When enrolling a device into a newly set up Workspace ONE environment, a user receives the error message "Invalid User Credentials". The user has verified that they are using the correct Active Directory credentials. The user has also successfully performed the "Test Connection" process to the Active Directory integration within the Workspace ONE UEM, but they still get the same error.

How should this problem be solved?

- A. Check the Device Enrollment restriction settings.
- B. Exit the Airplane mode on a mobile device.
- C. Enable Directory Authentication as the authentication mode.
- D. Enable the Workspace ONE REST API.

Correct Answer: A

QUESTION 5

A user wants to add devices to the Apple Device Enrollment Program (DEP) program. What are two ways this can be done? (Choose two.)

- A. Devices are manually added with the Apple Configurator 2 program.
- B. Devices are manually added with the Apple DEP Onboarding program.
- C. Devices are added manually.
- D. Devices are automatically added if the DEP reseller ID is added or manually with the Apple Configurator 2 program.
- E. Devices are automatically added if MDM server details have been added.

Correct Answer: CE
