QUESTION 1

An administrator is tasked to configure Okta as an Identity Provider for Workspace ONE.

What is the correct order of implementation?

- A. Add a Connector, create a third-party IDM in Workspace ONE, and create SAML app in Okta.
- B. Create SAML App in Okta, configure Routing Rules, and create a third-party IDP in Workspace ONE.
- C. Gather Service Provider Metadata from Identity Manager, create SAML App in Okta, and create a third-party IDP in Workspace ONE.
- D. Create a third-party IDP in Workspace ONE, gather Service Provider Metadata from Identity Manager, and create SAML App in Okta.

Correct Answer: B

QUESTION 3

What is the purpose of network ranges in conditional access policies?

- A. Network ranges are a fallback authentication method for an application.
- B. Network ranges limit access to an application depending of the source IP address.
- C. All applications are using the new network range by default.

D. Network ranges limit access to an application depending of the destination IP address.

Correct Answer: B

Reference: <https://docs.vmware.com/en/VMware-Workspace-ONE-UEM/1810/VMware-Workspace-ONEUEM-Mobile-Application-Management/GUID-AWT-AP-ADD-NETWORKRANGE.html>

QUESTION 4

What are two supported configurations for Windows Auto Discovery Service? (Choose two.)

- A. Requiring installation on an on-premises and cloud deployment.
- B. Enabling Workplace Web Enrollment for Windows Phone 8.
- C. Windows Phone and Windows Desktop Simplified Enrollment.
- D. Leveraging Server Name Indication (SNI) to support multiple domains.
- E. Using Workspace ONE UEM Auto-Discovery to return User ID.

Correct Answer: DE

QUESTION 5

An administrator wants to integrate VMware Identity Manager as a Federated Identity Provider for AD FS. Which two steps need to be completed? (Choose two.)

- A. Configure VMware Identity Manager as a Service Provider for AD FS.
- B. Create a VMware Identity Manager claims Provider Trust in AD FS.
- C. Exchange the certificates between Workspace ONE IDM and the domain controllers.
- D. Integrate Workspace ONE federated applications with AD FS.
- E. Redirect mobile users to VMware Identity Manager for authentication.

Correct Answer: AB
