### QUESTION 1

You need to implement the planned reporting changes after the Reporting server in the London office is deployed.

What should you do?

- A. From the Operations Manager console, configure the Security settings.
- B. From the Operations Manager Shell, run the Enable-SCOMOperationalDataReportingcmdlet.
- C. From Microsoft SQL Server Reporting Services (SSRS), upload a report model (.smdl) file and select a data source.
- D. From the Operations Manager console, configure the Reporting settings.

Correct Answer: D

---

### QUESTION 2

Your company has a private cloud that contains a System Center 2012 R2 infrastructure. You run applications virtually by using Hyper-V hosts. Each application has a dedicated virtual machine on a Hyper-V host.

The Microsoft Monitoring Agent is deployed to all physical servers. Currently, all of the physical servers are monitored for memory, CPU, and disk space use.

You need to monitor the memory, CPU, and disk space use of each application server.

What should you do?

- A. Deploy the Microsoft Monitoring Agent to each virtual machine.
- B. Configure a new notification subscription for each Hyper-V host.
- C. Deploy the Configuration Manager client to each virtual machine.
- D. Configure a new channel for each virtual machine.

Correct Answer: A

Bad question IMO. The thing to know here is that the SCOM Agent is now called the Microsoft Monitoring Agent. In order to monitor VMs, you need to install the SCOM agent (MMA) to the guest, not the host.

None of the other answers make sense anyways.

Please see <http://www.server-log.com/blog/2013/12/2/installing-scom-agent-microsoft-monitoring-agent-fromsystem.html>

---

### QUESTION 3

Server name	Component
Server1	Configuration Manager
Server2	Operations Manager
Server3	Service Manager
Server4	Virtual Machine Manager (VMM)

You need to implement self-service provisioning of virtual machines. The solution must ensure that users can start virtual machines, create virtual machine templates, and create services. What should you do? To answer, select the appropriate options in the answer area.

Hot Area: Hot Area:

Create a user role on:

Actions assigned to the user role:

Correct Answer:

**Answer Area**

Create a user role on:

Actions assigned to the user role:

**QUESTION 4**

You need to implement a solution to meet the monitoring requirements for App1. Which template should you use?

- A. TCP Port
- B. Web Application Transaction Monitoring
- C. Windows Service
- D. Process Monitoring

Correct Answer: B

---

#### QUESTION 5

You need to implement the incident management changes.

What should you do?

- A. From Windows PowerShell, run the Update-SCSMWorkflowcmdlet.
- B. From the Service Manager console, add a workflow.
- C. From Windows PowerShell, run the Update-SCSMDCMWorkflowcmdlet
- D. From the Service Manager console, edit an existing workflow.

Correct Answer: D
