QUESTION 1

You manage a SharePoint 2016 farm.

You create a unique site collection for each department. For each site collection, you grant specific users the Full control permission level to their site collection. These users are responsible for creating lists and libraries in the site collections.

You need to prevent all users from creating subsites within their site collections.
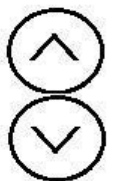

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Select and Place:

Actions	Answer area
Clear the permission to create subsites.	
Disable Self-Service Site Creation.	
Select the web application that hosts the site collections for each department.	
Modify user permissions for the site collection.	
Select Self-Service Site Creation settings page that hosts the site collections for each department.	
Verify that your user account is a member of the Farm Administrators SharePoint group.	

Correct Answer:

Actions

Disable Self-Service Site Creation.
Modify user permissions for the site collection.
Select Self-Service Site Creation settings page that hosts the site collections for each department.

Answer area

Verify that your user account is a member of the Farm Administrators SharePoint group.
Select the web application that hosts the site collections for each department.
Clear the permission to create subsites.

QUESTION 2

You plan to configure two-way federated search between SharePoint Online and SharePoint Server on-premises.

You need to identify where to configure the result source and remote provider for outbound connections from SharePoint on-premises to SharePoint Online, and for inbound connections from SharePoint Online to SharePoint on-premises.

Where should you configure the result source and remote provider for each network traffic direction? To answer, drag the appropriate option to the correct result source and remote providers. Each option may be used once, more than once,

or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Select and Place:

Products

SharePoint 2016
SharePoint Online

Answer Area

Federated search	Result source	Remote provider
Outbound search	Product	Product
Inbound search	Product	Product

Correct Answer:

Products
SharePoint 2016
SharePoint Online

Answer Area

Federated search	Result source	Remote provider
Outbound search	SharePoint 2016	SharePoint Online
Inbound search	SharePoint Online	SharePoint 2016

QUESTION 3

You are the SharePoint administrator for Contoso, Ltd. You plan to use the contoso.com domain for the deployment of a new SharePoint environment.

You need to deploy a SharePoint app to support ContosoApp1.

How should you configure the URL for the SharePoint app? To answer, select the appropriate option from each list in the answer area.

Hot Area:

Answer Area

http://

contoso.com
prefix-apphash.contosoapps.com
mysites.contoso.com

sites/web1/ContosoApp1
ContosoApp1
sites

Correct Answer:

Answer Area

http://

contoso.com
prefix-apphash.contosoapps.com
mysites.contoso.com

sites/web1/ContosoApp1
ContosoApp1
sites

QUESTION 4

You are the SharePoint administrator for a company. The company wants to enable bi-directional synchronization of user properties by using Microsoft Identity Manager (MIM) 2016.

You need to configure permissions for the MIM 2016 installation.

For each account, which two permissions should you assign? To answer, select the appropriate permission from each list in the answer area.

Hot Area:

Answer Area

Account	Permission one	Permission two
MIM Synchronization Service account	Log on as a service Local administrator Domain administrator	Run as a service Local administrator Domain user
MIM installation account	SQL Server admin SQL Server db_creator	SQL Server security admin Local administrator SQL Server write

Correct Answer:

Answer Area

Account	Permission one	Permission two
MIM Synchronization Service account	**Log on as a service** Local administrator Domain administrator	**Run as a service** Local administrator Domain user
MIM installation account	**SQL Server admin** SQL Server db_creator	SQL Server security admin **Local administrator** SQL Server write

QUESTION 5

You are a SharePoint administrator for a company. The SharePoint 2016 farm is a hybrid deployment with Office 365. Files are explicitly shared with external users by sending email invitations.

Users report that they cannot immediately view files in the OneDrive for Business Shared with Me view.

You need to ensure that users can view all files as they are shared while minimizing the changes to the current service

topology.

What should you do?

A. Enable the Recently Shared Items cache on the root site collection

B. Initiate a search crawl and re-index the SharePoint farm

C. Enable Outgoing SMTP

D. Enable the Recently Shared Items cache on the Search server

E. Enable the Distributed Cache on all servers

Correct Answer: A
