QUESTION 1

You are a project manager for an organization that uses visibility projects in Microsoft PPM. For each of the following statements, select Yes if the statement is true. Otherwise, select No.

Hot Area:

Statement	Yes	No
You must publish the project to make the most current information available to others.	<input type="radio"/>	<input type="radio"/>
For projects that only use SharePoint task lists, you do not need to publish your project to make the most current information available to others.	<input type="radio"/>	<input type="radio"/>
Until you publish your changes, team members and others who access the project will see the last saved version of the project.	<input type="radio"/>	<input type="radio"/>

Correct Answer:

Statement	Yes	No
You must publish the project to make the most current information available to others.	<input checked="" type="radio"/>	<input type="radio"/>
For projects that only use SharePoint task lists, you do not need to publish your project to make the most current information available to others.	<input type="radio"/>	<input checked="" type="radio"/>
Until you publish your changes, team members and others who access the project will see the last saved version of the project.	<input checked="" type="radio"/>	<input type="radio"/>

QUESTION 2

You use Microsoft PPM to manage projects. You plan to add risks and issues to a project For each of the following statements, select Yes if the statement is true. Otherwise, select No.

Hot Area:

Statement	Yes	No
To add risks and issues, open the project site that is connected to the project. Navigate to the list of risks or issues, and then add risks or issues.	<input type="checkbox"/>	<input type="checkbox"/>
To add risks and issues for a project, open the project in Microsoft Project, and then add risks or issues.	<input type="checkbox"/>	<input type="checkbox"/>
To add risks and issues for a project, select Issues and Risks in the quick launch menu.	<input type="checkbox"/>	<input type="checkbox"/>

Correct Answer:

Statement	Yes	No
To add risks and issues, open the project site that is connected to the project. Navigate to the list of risks or issues, and then add risks or issues.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
To add risks and issues for a project, open the project in Microsoft Project, and then add risks or issues.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
To add risks and issues for a project, select Issues and Risks in the quick launch menu.	<input type="checkbox"/>	<input checked="" type="checkbox"/>

QUESTION 3

You are using Microsoft PPM to manage an e-commerce portal development program. The program is separated into individual projects that represent each area of development.

You have the following requirements:

All work and progress on individual projects must be reflected in the e-commerce portal development program.

Each group must be able to manage their own tasks.

You need to set up the e-commerce portal development program and its associated projects in Microsoft PPM.

Where should you add resources?

- A. in the e-commerce portal development program project site
- B. in the individual project schedules
- C. in Build Team, in the e-commerce portal development program schedule
- D. in the individual project sites

Correct Answer: C

QUESTION 4

You are an administrator for your company's Microsoft PPM environment. You implement several project level enterprise custom fields and add these fields to new and existing views.

Some users report they spend too much time scrolling left and right in a view named Team Status. You determine that the column width for the Enterprise Project Type field may be causing the issue.

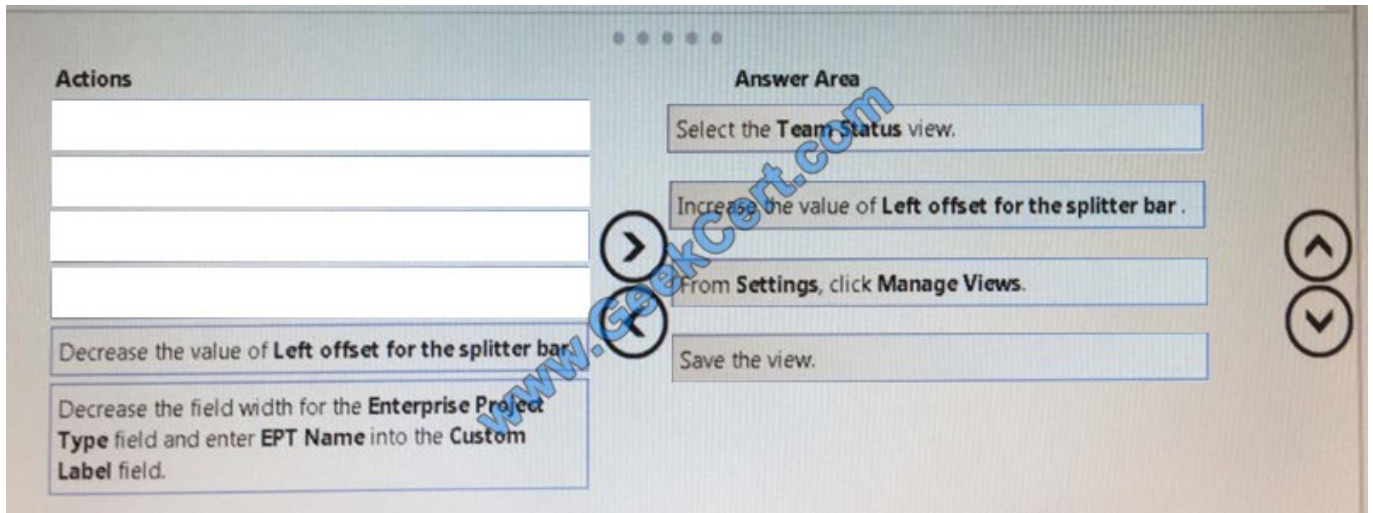

You need to reduce the amount of scrolling.

Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Select and Place:

The screenshot shows a drag-and-drop interface. On the left, under the heading "Actions", there is a list of six actions in a box. On the right, under the heading "Answer Area", there is a right-pointing arrow and two vertical arrows (up and down). A watermark "www.GeekCert.com" is visible across the center of the interface.

Correct Answer:

QUESTION 5

You are a project manager in an organization that uses Microsoft PPM.

You have been given additional responsibilities managing existing projects created by another project manager.

When reviewing the project plan, you observe that some of the upcoming tasks are assigned to a generic resource.

You need to update the generic tasks to use defined resources

Which type of resource should you use?

- A. Material
- B. Cost
- C. Budget
- D. Work

Correct Answer: C
