QUESTION 1

You have a Lync Server 2013 infrastructure. The infrastructure contains two sites. The sites are located in New York and Rome. Each site has Enterprise Voice deployed and contains separate dial plans and voice policies. You plan to deploy

dial-in conferencing to both sites.

In each site, you create a dedicated conferencing policy. You assign the conferencing policies to the respective users in each site.

You create a dial-in conferencing access number.

When you attempt to assign a region to the number, you discover that the regions are unavailable.

You need to ensure that you can add a region to the dial-in conferencing access number.

What should you modify?

- A. The conferencing policies
- B. The meeting configuration settings
- C. The voice policies
- D. The dial plans

Correct Answer: D

QUESTION 2

Your company has two offices. The offices are located in New York and Amsterdam. The dialing habits of the users in each office are shown in the following table.

Office	Phone number range	Dialing habit
New York	+1 212 555 1000 - 3000	<ul style="list-style-type: none">• Local PSTN: 10-digit phone number• Long distance calls within North America: 1 + 10-digit phone number• International calls outside of North America: 011 + phone number
Amsterdam	+31 20 1234 500 - 510	<ul style="list-style-type: none">• Local PSTN: 7-digit phone number• Long distance calls within the Netherlands: 0 + 9-digit phone number• International: 00 + phone number

You need to create a dial plan for the users in the Amsterdam office.

Which match patterns should you use in the normalization rules? To answer, select the appropriate match patterns in the answer area.

HOTSPOT Hot Area:

QUESTION 3

You have a Lync Server 2013 infrastructure. The infrastructure contains four Standard Edition Front End Servers and an

Edge Server. You run Get-CsManagementStoreReplicationStatus | ft ReplicaFQDN, UpToDate and you receive the following output:

```
ReplicaFqdn                                     UpToDate
-----
edge01.contoso.com                             False
lyncfe01.contoso.com                          False
lyncfe02.contoso.com                          False
lyncfe03.contoso.com                          False
lyncfe04.contoso.com                          False
```

On the server responsible for the replication of the Central Management store, you discover that several services have stopped.

You need to enable the replication of the Central Management store.

Which service should you start? (To answer, select the appropriate service in the answer area.)

QUESTION 4

You need to identify which configurations must be implemented for the planned Lync Server 2013 deployment. The solution must meet the network requirements.

Which features should you use? To answer, drag the appropriate features to the correct requirements in the answer area. Each feature may be used once, more than once, or not at all. Additionally, you may need to drag the split bar between

panes or scroll to view content.

DRAG DROP Select and Place:

Features	Answer Area
Call Admission Control (CAC)	Limit the total bandwidth of all audio and video sessions from the Chicago office. Feature
Differentiated Services (DiffServ)	Reduce the network utilization of Mediation servers. Feature
Media bypass	Prioritize Lync audio traffic on the network. Feature
Quality of Experience (QoE)	

Correct Answer:

Features	Answer Area
	Limit the total bandwidth of all audio and video sessions from the Chicago office. Call Admission Control (CAC)
	Reduce the network utilization of Mediation servers. Media bypass
Quality of Experience (QoE)	Prioritize Lync audio traffic on the network. Differentiated Services (DiffServ)

QUESTION 5

You need to recommend which Lync Server 2013 solution must be deployed to the New York and Montreal offices to support the planned changes. The solution must meet the business goals. What should you recommend? (To answer, select the appropriate components for each office in the answer area.)

HOTSPOT Hot Area:

New York:

- a Standard Edition Server
- a Survivable branch Appliance
- a Survivable Branch Server
- two Enterprise Edition Servers in a pool

Montreal:

- a Standard Edition Server
- a Survivable Branch Appliance
- a Survivable Branch Server
- two Enterprise Edition Servers in a pool

Correct Answer:

New York:

- a Standard Edition Server
- a Survivable Branch Appliance
- a Survivable Branch Server
- two Enterprise Edition Servers in a pool

Montreal:

- a Standard Edition Server
- a Survivable Branch Appliance
- a Survivable Branch Server
- two Enterprise Edition Servers in a pool
