QUESTION 1

You are the administrator of a SQL Server 2005 computer. Your company\\'s database auditing department must receive an e-mail message when the SQL Server service and the SQL Server Agent service are started, stopped, or paused. They also need to receive an e-mail message when the EXECUTE AS option is used with stored procedures and other commands. You need to ensure that the auditing department receives the e-mail messages that they need.

Which two actions should you perform? (Each correct answer presents part of the solution. Choose two.)

A. Use SQL Server Profiler to track the Audit Statement Permission event class.

B. Use SQL Server Profiler to track the Audit Server Principal Impersonation event class.

C. Use SQL Server Profiler to track the Audit Server Starts and Stops event class.

D. Create a Windows Group Policy Object to audit System Events.

E. Create an Event Notification on the Audit Server Principal Impersonation event class.

F. Create an Event Notification on the Audit Server Starts and Stops event class.

Correct Answer: EF

QUESTION 2

You are a database administrator for your company. The company\\'s manufacturing floor has three automated testing areas for finished items. Each testing area uses SQL Server 2005 to store test results. You need to develop a replication strategy to ensure that test results flow continuously from the testing areas to the central SQL Server as quickly as possible. The test results are used for reporting.

What should you do?

A. Create a separate snapshot publication at each of the testing areas for the test results.Create a pull subscription on the central server to each of the testing area publications.

B. Create a separate snapshot publication at each of the testing areas for the test results.Create a merge subscription on each distributor to the central server.

C. Create a separate transactional publication at each of the testing areas for the test results.Create push subscriptions on each of the testing areas to the central server.

D. Create a separate transactional publication at each of the testing areas for the test results.Create a merge subscription on each distributor to the central server.

Correct Answer: C

QUESTION 3

You are the database administrator for your company. You manage a SQL Server 2005 database named Sales. You are given a SQL Server Profiler sample workload with queries to the Sales database on a typical day. You need to evaluate the effectiveness of current indexing and the identify changes that would be appropriate.

What should you do first?

A. Use the Index Tuning Wizard with the sample workload.

B. Use SQL Server Profiler to run the sample workload.

C. Create a query with the five stored procedures that are used the most frequently. Then click the Analyze Query in Database Engine Tuning Advisor button.

D. Use the Database Engine Tuning Advisor (DTA) with the sample workload.

Correct Answer: D

QUESTION 4

A rental agent named Eric is a member of the Windows rental_agents group. He was inadvertently given more permissions than he should have as a member of the rental_agents group. You confirm that the other rental agents do not have excessive permissions. You use the EXECUTE AS statement to impersonate Eric, and you run six different SQL commands in the internet_rentals database. You need to identify which of the commands have results that show excessive permissions for Eric.

Which two commands should you identify? (Each correct answer presents part of the solution. Choose two.)

A. SELECT name FROM sys.tables WHERE HAS_PERMS_BY_NAME(name, \\'OBJECT\\', \\'SELECT\\') = 1;returns 10 rows

B. SELECT HAS_DBACCESS(\\'internet_rentals\\');returns a value of 1

C. SELECT HAS_PERMS_BY_NAME(\\'sa\\', \\'LOGIN\\', \\'IMPERSONATE\\'); returns a value of 0

D. SELECT IS_SRVROLEMEMBER (\\'serveradmin\\');returns a value of 1

E. SELECT name FROM sys.tables WHERE HAS_PERMS_BY_NAME(name, \\'OBJECT\\', \\'DELETE\\') = 1; returns 10 rows

Correct Answer: DE

QUESTION 5

You need to modify the recovery plan for the CRM database to fulfill the companys business requirements. What should you do?

A. Add differential backups every three hours.

B. Change the full backups to run every night.

C. Change the log backups to run twice per hour.

D. Change the log backups to run once every two hours.

E. Replace the nightly differential backups with full backups.

Correct Answer: A
