### QUESTION 1

Your Scrum team is planning a release and wants to prioritize user stories based on value and risk. The stories are grouped according to the ratio of value to risk, as shown in the following image. Effort is the same for all user stories.

The product owner on your team wants to ensure a higher return on investment based on today's prioritization activity.

You need to prioritize these user stories into four sprints for this release.

Use the drop-down menus to select the answer choice that answers each question.

Hot Area:

### Answer Area

Which user stories should you include in Sprint 1?

<input type="checkbox"/> User Stories: 12, 14, 15, 16, and 17
<input type="checkbox"/> User Stories: 1, 2, 3, 9, and 20
<input type="checkbox"/> User Stories: 4, 7, 11, 18, and 19

Which user stories should you include in Sprint 4?

<input type="checkbox"/> User Stories: 1, 2, 3, 9, and 20
<input type="checkbox"/> User Stories: 4, 7, 11, 18, and 19
<input type="checkbox"/> User Stories: 14, 15, 16, and 17

Correct Answer:

### Answer Area

Which user stories should you include in Sprint 1?

<input type="checkbox"/> User Stories: 12, 14, 15, 16, and 17
<input checked="" type="checkbox"/> User Stories: 1, 2, 3, 9, and 20
<input type="checkbox"/> User Stories: 4, 7, 11, 18, and 19

Which user stories should you include in Sprint 4?

<input type="checkbox"/> User Stories: 1, 2, 3, 9, and 20
<input type="checkbox"/> User Stories: 4, 7, 11, 18, and 19
<input checked="" type="checkbox"/> User Stories: 14, 15, 16, and 17

### QUESTION 2

You are the lead tester for Contoso, Ltd. The company is using Microsoft Visual Studio to develop a new software product.

Management wants to test the product as it is developed. Some components that require testing have dependencies that are not yet built or are otherwise unavailable.

You need to test the components.

In the table below, identify where only a shim or a stub can be used in the situation. Make only one selection in each column.

Hot Area:

Answer Area

Testing situation	Shim	Stub
a call that uses defined interface to reach an external service	<input type="checkbox"/>	<input type="checkbox"/>
a call to an internal type	<input type="checkbox"/>	<input type="checkbox"/>
a call to a private method.	<input type="checkbox"/>	<input type="checkbox"/>

Correct Answer:

Answer Area

Testing situation	Shim	Stub
a call that uses defined interface to reach an external service	<input type="checkbox"/>	<input checked="" type="checkbox"/>
a call to an internal type	<input type="checkbox"/>	<input checked="" type="checkbox"/>
a call to a private method.	<input checked="" type="checkbox"/>	<input type="checkbox"/>

QUESTION 3

You manage a development team for a group of stakeholders that are physically remote from your development center. Stakeholders have blocked out dates and times on their schedules for your team. The stakeholders are concerned that several of the project requirements will not meet their needs due to changing market conditions.

You need to ensure that the following requirements are met: s Your team is doing effective and efficient work.

The work is meeting the needs of the business.

The project's timeline is not at risk.

Which two actions should you perform? (Each correct answer presents part of the solution. Choose two.)

- A. Institute a policy of sign-offs for each requirement and design document.
- B. Develop a series of iterative proofs of concept that reflect a partial delivery of requirements and get feedback from the product owner.
- C. Instruct the team to create a comprehensive set of design documents for each layer of the system. Schedule a review with the stakeholders to get their feedback.
- D. Add a primary stakeholder to your team as the product owner.

Correct Answer: BD

---

#### QUESTION 4

You are developing a web application. Currently, the test team tests the website on a Hyper-V virtual machine (VM) named WebTest. The majority of the test cases explicitly reference WebTest.

The test team wants to divide into two independent teams to speed testing, and has indicated that they will likely create a third test team soon.

You need to define a strategy that provides separate test environments for each team with as little impact on the tests as possible.

What should you do? (To answer, move the three appropriate actions from the list of actions to the answer area and arrange them in the correct order.)

Select and Place:

Answer Area	
Deploy a copy of WebTest from the library.	
Enable network isolation on the WebTest virtual machine.	
Create a new SCVMM environment in the lab, adding the WebTest virtual machine and enabling network isolation.	
Using SCVMM, create a VM template from the WebTest virtual machine and store the template in the library.	
Deploy two instances of the SCVMM environment from the library.	
Store the SCVMM Environment into the library.	

Correct Answer:

Answer Area	
Deploy a copy of WebTest from the library.	
Enable network isolation on the WebTest virtual machine.	
Store the SCVMM Environment into the library.	

Note:

\* A virtual machine template is a library resource consisting of a guest operating system profile, a hardware profile, and one or more virtual hard disks (VHDs), which can be used to create a new virtual machine. Self-service users must use assigned templates to create their virtual machines.

## QUESTION 5

Your company is developing a web application by using the Microsoft Visual Studio Scrum 2.0 process template. The development team committed to deliver a set of Product Backlog Item (PBI) work items for the upcoming sprint.

You implement the initial tests for the PBIs in scope for the upcoming sprint. You plan to add more tests during the sprint.

You need to ensure that your test plan automatically includes any new tests.

What should you do?

A.

Create a Microsoft Excel spreadsheet that lists all the acceptance tests for the PBIs.

Use a Pivot table to report the test cases per PBI.

B.

Create test case work items for the acceptance tests.

Link these test cases to the PBI work items.

Add a query based test suite that selects all test cases linked with the PBIs in scope.

C.

Create test case work items for the acceptance tests.

Link these test cases to the associated PBI work items.

Add the PBIs to the test plan.

D.

Create test case work items for the acceptance tests.

Create a suite in Microsoft Test Manager (MTM) and add all test cases to this suite.

Correct Answer: C
