QUESTION 1

You need to configure role instances. Which size should you specify for the VM?

- A. Use Small for Off-Peak mode.
- B. Use Large for On-Peak mode.
- C. Use Extra Large for On-Peak mode.
- D. Use Extra Small for Off-Peak mode.

Correct Answer: B

QUESTION 2

You are a system administrator at your company. You are setting up Azure DevTest Labs for your Development, Test, and UAT environments.

You have the following requirements: The Development environment must provision VMs in the fastest way possible. The Test environment must allow for configuration of default settings of the VM sizes and virtual network settings. The UAT environment must deploy the latest changes from the release pipeline with the target base image.

You need to decide whether to use custom images or formulas for each environment.

What should you do? To answer, select the appropriate technology for each environment. Each technology

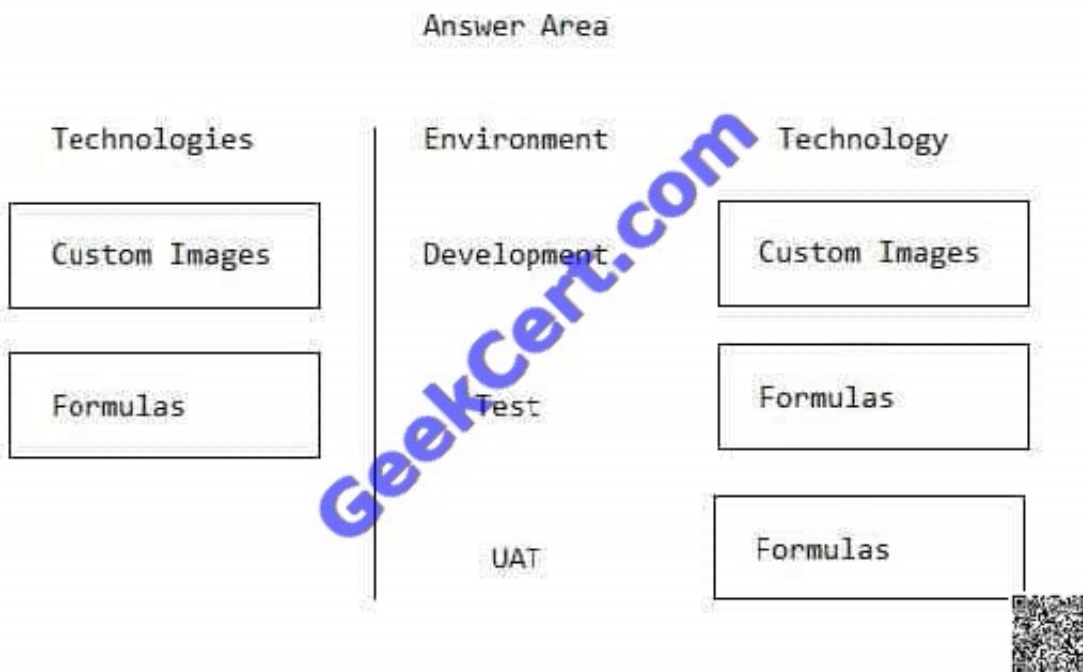

may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Select and Place:

Correct Answer:

QUESTION 3

Cloud computing relies heavily on which of the following virtualization characteristics? (Select two.)

- A. User federation

- B. Hardware independence
- C. Simplistic setup
- D. Scalable resources
- E. Information sharing

Correct Answer: BD

B: Virtualization is a conversion process that translates unique IT hardware into emulated and standardized software-based copies. Through hardware independence, virtual servers can easily be moved to another virtualization host, automatically resolving multiple hardware-software incompatibility issues. As a result, cloning and manipulating virtual IT resources is much easier than duplicating physical hardware.

D: Infrastructure as a Service (IaaS) is a form of cloud computing that provides virtualized computing resources over the Internet. IaaS platforms offer highly scalable resources that can be adjusted on-demand. References:

QUESTION 4

You need to implement data storage for patient information. What should you do?

- A. Use the Set Blob Properties operation of the Blob Service REST API
- B. Use the Insert Entity operation of the Table Service REST API.
- C. Use the Set Queue Metadata operation of the Create Queue REST API.
- D. Use the Query Entities operation of the Table Service REST API.

Correct Answer: A

QUESTION 5

Which of the following statements are true of stored access policies? (Choose Two.)

- A. You can modify the start or expiration date for access.
- B. You can revoke access at any point in time.
- C. You can modify permissions to remove or add supported operations.
- D. You can add to the list of resources accessible by an SAS token.

Correct Answer: ABC
