### QUESTION 1

A company has Windows 8.1 client computers. File History is on. An employee downloads data to a folder on drive D named Archives.

You need to ensure that the user can restore files from the Archives folder by using File History.

What should you do?

- A. Create a library named History and add the Archives folder to the library.
- B. Move the Archives folder into the Windows system folder.
- C. Configure the File History advanced settings to include the Archives folder.
- D. From the File History configuration options, change the drive and select the Archives folder.

Correct Answer: A

---

### QUESTION 2

A company has client computers that run Windows 7. Each employee has two client computers: one at work and one at home.

The company plans to deploy Windows 8.1 to all client computers.

You are planning a deployment strategy.

You have the following requirements:

Minimize deployment time.

Ensure that the PC Reset and PC Refresh features can be utilized on all work computers.

You need to plan a deployment strategy that meets the requirements.

What should you do? (To answer, drag the appropriate installation method or methods to the correct location or locations in the answer area. Methods may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.)

Select and Place:

## Installation Methods

Install Windows 8.1 directly on the client computer.

Start the client computer from a USB flash drive on which you have installed Windows 8.1.

Start the client computer from a USB flash drive on which you have installed Windows To Go.

Start the client computer from a OneDrive location on which you have installed Windows 8.1.

## Answer Area

Computer	Method
Work computer	Installation Method
Home computer	Installation Method

Correct Answer:

## Installation Methods

Start the client computer from a USB flash drive on which you have installed Windows 8.1.

Start the client computer from a OneDrive location on which you have installed Windows 8.1.

## Answer Area

Computer	Method
Work computer	Install Windows 8.1 directly on the client computer.
Home computer	Start the client computer from a USB flash drive on which you have installed Windows To Go.

## QUESTION 3

You are the desktop administrator for a medium-sized company.

You are rolling out new Windows 8.1 computers to your employees. You configure one of the computers so that it has the devices and settings the employees need for testing purposes.

You need to ensure that the hardware devices are operating properly.

Which tool should you use?

A. Mmc devmgmt.msc

B. sigverif.exe

C. Driverquery/si

D. verifier.exe /faults

Correct Answer: A

#### QUESTION 4

You have laptops that run Windows 8. The laptops have Microsoft User Experience Virtualization (UE-V) installed.

You need to ensure that the application settings, which are synchronized by using UE-V, apply to computers that are disconnected from the network.

What should you do?

A. From a command prompt, run `sc config PeerDistSvc start=auto`.

B. From Group Policy Management Editor, configure the Windows Connection Manager settings.

C. From a command prompt, run `sc config CscService start=auto`.

D. From Group Policy Management Editor, configure the Network Connections settings.

Correct Answer: C

Explanation: Problem: UE-V Agent installation fails with error: The Offline Files service is not running Cause: The UE-V Agent installation failed because Offline Files was not enabled on the system. Resolution: To resolve the issue, enable Windows Offline files on the system. Windows 7 and Windows 8 Run the following command from an elevated command prompt: `sc config cscservice start=auto` <http://technet.microsoft.com/en-US/library/jj680025.aspx>  
<http://technet.microsoft.com/en-US/library/cc990290.aspx>

#### QUESTION 5

A computer currently runs a 64-bit version of Windows 7 Enterprise.

You need to deploy a 64-bit version of Windows 8.1 Pro to the computer. The new deployment must not affect the Windows 7 installation on the computer.

Which three actions should you perform in sequence? (To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.)

Select and Place:

Select the installation option to delete each partition on the hard drive.

Start the computer from the Windows 8 installation media.

Using Windows Explorer, run the setup program from the Windows 8 installation media.

Select the **Custom** installation option.

Select the **Upgrade** installation option.

In Disk Management, shrink the current hard drive partition.

Correct Answer:

Select the installation option to delete each partition on the hard drive.

In Disk Management, shrink the current hard drive partition.

Using Windows Explorer, run the setup program from the Windows 8 installation media.

Start the computer from the Windows 8 installation media.

Select the **Custom** installation option.

Select the **Upgrade** installation option.
