QUESTION 1

Note: This question is part of a series of questions that use the same or similar answer choices. An answer choice may be correct for more than one question in the series. Each question is independent of the other questions in this series.

Information and details in a question apply only to that question.

You have a laptop that is joined to an Active Directory domain.

You establish a WiFi connection to a customer's WiFi network.

You need to identify whether the current network location of the WiFi connection is private or public.

Which Control Panel application should you use?

- A. Phone and Modem
- B. RemoteApp and Desktop Connections
- C. System
- D. Credential Manager
- E. Work Folders
- F. Power Options
- G. Sync Center
- H. Network and Sharing Center

Correct Answer: H

QUESTION 2

You administer Windows 10 Enterprise computers.

Users in the accounting department ask you to configure a recovery solution for Microsoft Word and Excel files.

You need to ensure that users can restore Microsoft Word and Excel files to previous versions for up to 30 days.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Select and Place:

• • • • •

Actions	Answer Area
Turn on System Protection and create a restore point.	
Start the Volume Shadow Copy service and change the startup type to Automatic .	
Configure the Keep Saved Versions setting.	
Create a network share and configure NTFS and share permissions.	
Turn on File History.

QUESTION 3

You work for a small company that recently upgraded to Windows 10 Enterprise computers.

The HR department stores sensitive data in a folder named Personnel Files.

You need to encrypt this folder only, and no other data.

What are two possible ways to achieve this goal? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Use EFS.
- B. Use cipher.exe.
- C. Use BitLocker
- D. Use REFS.

Correct Answer: AB

QUESTION 4

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while

others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your company uses Microsoft Office 365.

You need to ensure that users are prompted to label and classify documents while they edit documents.

Solution: You configure an Office 365 data loss prevention (DLP) policy.

Does the solution meet the goal?

A. Yes

B. No

Correct Answer: B

QUESTION 5

You have a computer named Computer1 that runs Windows 10 Enterprise.

You plan to implement File History on Computer1.

You need to identify the interface that can be used to perform File History management actions.

Which interface should you identify for each action? To answer, select the appropriate options in the answer area.

Hot Area:

Add items to be included in the File History:

- Backup section from the Settings app
- File history item from Control Panel
- Storage Spaces item from Control Panel

Configure File History to use a network location:

- Backup section from the Settings app
- File history item from Control Panel
- Storage Spaces item from Control Panel

Correct Answer:

Add items to be included in the File History:

- Backup section from the Settings app
- File history item from Control Panel
- Storage Spaces item from Control Panel

Configure File History to use a network location:

- Backup section from the Settings app
- File history item from Control Panel
- Storage Spaces item from Control Panel
