QUESTION 1

Device runs Windows 10 Enterprise. Users report sound issues with the device.

An administrator installs a driver package that causes several devices to be nonfunctional. The driver package updates the video and sound card drivers and disables the modem.

You have determined the following:

The original driver for the video card was correct.

The sound card driver in the downloaded package was not the correct driver.

The modem driver was not updated.

You download the correct driver for the sound card.

You need to return all devices to a functional state.

Which action should you recommend for each peripheral device? To answer, configure the appropriate options in the dialog box in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

Video card:

▼
Rollback driver
Update driver
Enable device
Disable device

Sound card:

▼
Rollback driver
Update driver
Enable device
Disable device

Modem:

▼
Rollback driver
Update driver
Enable device
Disable device

Correct Answer:

Video card:

▼
Rollback driver
Update driver
Enable device
Disable device

Sound card:

▼
Rollback driver
Update driver
Enable device
Disable device

Modem:

▼
Rollback driver
Update driver
Enable device
Disable device

QUESTION 2

You are using sysprep to prepare a system for imaging.

You want to reset the security ID (SID) and clear the event logs.

Which option should you use?

A. /generalize

B. /oobe

C. /audit

D. /unattend

Correct Answer: A

Generalize prepares the Windows installation to be imaged. If this option is specified, all unique system information is removed from the Windows installation. The security ID (SID) resets, any system restore points are cleared, and event logs

are deleted.

The next time the computer starts, the specialize configuration pass runs. A new security ID (SID)is created, and the clock for Windows activation resets, if the clock has not already been reset three times.

QUESTION 3

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution. Determine whether the solution meets the stated goals.

While performing maintenance on a computer, you open Indexing Options, and then you click Pause.

You complete the computer maintenance.

You need to resume indexing.

Solution: From the Services console, you restart the Windows Search service.

Does this meet the goal?

A. Yes

B. No

Correct Answer: A
