QUESTION 1

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while

others might not have a correct solution.

After you answer a question in this scenario, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You are the administrator for a company. All devices run Windows 10 Enterprise and are members of the Adatum.com domain. All drives on the devices are formatted with the NTFS file system and have the default permissions assigned. You

have a device which is used by multiple users and stores information for a specific project. The project team members are members of a group named ProjectX.

The system is also used by other people that are not members of the ProjectX team. All files for ProjectX are stored in a folder with the path E:\ProjectX.

You have the following requirements:

*Only members of the ProjectX group must have all permissions on the folder and all of the files in it.

*ProjectX members should not be granted any specific rights to any other folders.

You need to meet the requirements.

Solution: You disable inheritance on the E:\ProjectX with the remove option. You assign the Full Control permission to the Adatum\ProjectX group.

Does the solution meet the goal?

A. Yes

B. No

Correct Answer: A

QUESTION 2

Note: This question is part of a series of questions that use the same scenario. For your convenience, the scenario is repeated in each question. Each question presents a different goal and answer choices, but the text of the scenario is

exactly the same in each question in this series.

Start of repeated scenario

Your network contains a single Active Directory domain named contoso.com. All computers are members of the domain and run the 64-bit version of Windows 10 Enterprise.

On a test computer named Computer_Test1, you pin several company-specific applications in a group named Contoso

Apps, and then you export the start menu layout to a file named contoso.xml.

You install Client Hyper-V on a computer named Computer6.

You identity the following requirements.

* Install the Hyper V feature on a computer named Computer1.

* Use virtual smart card authentication on a computer named Computer2.

* Enable Secure Boot on a computer named Computer3.

* Connect a computer named Computer4 to a projector by using Miracast.

* Ensure that a user named User 1 can use keyboard shortcuts by pressing one key at a time.

* Ensure that you can share the clipboard between Computer6 and the virtual machines running on Computer6.

* Add the Contoso Apps group to the Start menu of a computer named Computer7.

End of repeated scenario.

You install all of the Contoso apps on Computer7.

You need to meet the requirements of Computer7.

What should you do?

A. Run the Import-StartLayout cmdlet.

B. Copy Contoso.xml to the C:\Users\Default\Start menu folder.

C. Configure the Start Menu and Taskbar settings in a Group Policy.

D. Copy Contoso. xml to the C:\ProgramData\Microsoft\Windows\Start Menu folder.

Correct Answer: A

QUESTION 3

Your network contains a single Active Directory domain named contoso.com.

In contoso.com, you create an organizational unit (OU) named OU1.

You need to use a provisioning package to perform the following:

How should you configure the provisioning package? To answer, select the appropriate options in the answer area.

Hot Area:

Answer Area

Value of the AccountOU property:

- Contoso.com/OU1
- Ldap://contoso.com/OU1
- OU=OU1, AD=contoso.com
- OU=OU1, DC=contoso, DC=com

Value of the ComputerName property:

- Station#Num 3
- StationNNN
- Station%RAND:3%
- Station [\D:3]

Correct Answer:

Answer Area

Value of the AccountOU property:

- Contoso.com/OU1
- Ldap://contoso.com/OU1
- OU=OU1, AD=contoso.com
- **OU=OU1, DC=contoso, DC=com**

Value of the ComputerName property:

- Station#Num 3
- StationNNN
- **Station%RAND:3%**
- Station [\D:3]

QUESTION 4

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while

others might not have a correct solution. After you answer a question in this scenario, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You are the administrator for a company. All devices run Windows 10 Enterprise and are members of the Adatum.com domain. All drives on the devices are formatted with the NTFS file system and have the default permissions assigned. You

have a device which is used by multiple users and stores information for a specific project. The project team members are members of a group named ProjectX.

The system is also used by other people that are not members of the ProjectX team. All files for ProjectX are stored in a folder with the path E:\ProjectX.

You have the following requirements:

*Only members of the ProjectX group must have all permissions on the folder and all of the files in it.

*ProjectX members should not be granted any specific rights to any other folders.

You need to meet the requirements.

Solution: You disable inheritance on the E:\ drive and specify the remove option. You assign the Full Control permission to the Project X group.

Does the solution meet the goal?

A. Yes

B. No

Correct Answer: B

QUESTION 5

You have a computer named Computer1 that runs the 64-bit version of Windows 10 Pro.

You obtain a new driver for a device installed on Computer1. The driver is not digitally signed.

You need to test the installation of the driver on Computer1.

What should you do first?

A. Run dism.exe and specify the /Add-Driver and /Force-Unsigned parameters.

B. From User Configuration in Group Policy, configure the Driver Installation settings.

C. Restart Computer1 by using the advanced startupoptions.

D. From Computer Configuration in Group Policy, configure the Driver Installation settings.

Correct Answer: C
