QUESTION 1

An organization is at Tier 1 of the ISO 19770-1 specification.

The organization plans to improve SAM polices to achieve Tier 2.

For each of the following statements, select Yes if the statement is true. Otherwise, select No. NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

Statement	Yes	No
A policy must define restrictions on personal use of corporate software.	○	○
A review is performed every other year to determine Proof of License for software.	○	○
A policy must define the procurement requirements for software licenses.	○	○

Correct Answer:

Answer Area

Statement	Yes	No
A policy must define restrictions on personal use of corporate software.	●	○
A review is performed every other year to determine Proof of License for software.	●	○
A policy must define the procurement requirements for software licenses.	○	●

QUESTION 2

You are an IT asset manager for an organization. You generate a software inventory report.

You must implement a SAM verification process for the software inventory.

You need to determine if the organization has purchased the right number of licenses for its assets.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

NOTE: More than one order of answer choices if correct. You will receive credit for any of the correct orders you select.

Select and Place:

Actions

| Reconcile purchasing records with inventory records. |
| Find purchasing records for all installed software. |
| Perform an inventory of the installed software. |
| Create a list of approved vendors. |

Answer Area

Correct Answer:

Actions

| |
| |
| |
| Create a list of approved vendors. |

Answer Area

| Perform an inventory of the installed software. |
| Find purchasing records for all installed software. |
| Reconcile purchasing records with inventory records. |

QUESTION 3

An organization plans to use SAM to manage their Microsoft Open licenses and computers.

You need to identify which tool to use to complete the following steps:

Perform an initial inventory of software that is in use.

Identify licenses that have previously been purchased.

Export inventory results into a Microsoft Excel-compatible report.

Which tool should you use to meet each requirement? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

Requirement	Tool
Identifying existing inventory	▼
	Microsoft Assessment and Planning Toolkit (MAP)
	Microsoft License Advisor (MLA)
	Microsoft Volume Licensing Service Center (VLSC)

QUESTION 4

Note: This question is part of a series of questions that use the same or similar answer choices. An answer choice may be correct for more than one question in the series. Each question is independent of the other questions in this series.

Information and details provided in a question apply only to that question.

An organization uses Microsoft SQL Server and SQL Server Reporting Services (SSRS) for inventory reporting.

The organization must generate a report that includes detailed hardware information for desktops and servers in the environment. The report must use data that is collected from a scheduled inventory process.

What should you use?

A. Microsoft Assessment and Planning Toolkit (MAP)

B. Microsoft Deployment Toolkit (MDT)

C. Microsoft Intune

D. Microsoft License Advisor (MLA)

E. Microsoft Security Compliance Manager (SCM)

F. System Center Configuration Manager (ConfigMgr)

G. System Center Operations Manager (OpsMgr)

H. Microsoft Virtual Machine Manager (VMM)

Correct Answer: F

Reporting in System Center Configuration Manager provides a set of tools and resources that help you use the advanced reporting capabilities of SQL Server Reporting Services (SSRS) and the rich authoring experience that Reporting

Services Report Builder provides.

Reporting helps you gather, organize, and present information about users, hardware and software inventory, software updates, applications, site status, and other Configuration Manager operations in your organization.

QUESTION 5

You are designing a purchasing process for a SAM program. An organization overpays for software licenses. Managers are making independent software purchases on their corporate credit cards.

The solution has the following requirements:

Ensure that the organization receives volume discount.

Minimize costs associated with software licenses purchases.

Ensure that the employees comply with new policies.

For each of the following statements, select Yes is the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

Statement	Yes	No
You should implement an employee awareness training program.	○	○
You should establish and publish a list of approved software vendors.	○	○

Correct Answer:

Answer Area

Statement	Yes	No
You should implement an employee awareness training program.	○	○
You should establish and publish a list of approved software vendors.	○	○
