QUESTION 1

How does the Cisco Catalyst 1000 series switch function?

- A. with Cisco IOS software and it supports advanced device and network management via CLI
- B. offers flexibility for a wide range of network environments, supporting IGb or IOGb uplinks
- C. as a fixed managed FastEthernet enterprise-class layer-2 switch for small businesses and branch offices
- D. as a fixed managed Gigabit Ethernet enterprise-class layer-3 capable switch for small businesses and branch Offices

Correct Answer: B

QUESTION 2

How has small business response time to cyberattacks changed?

- A. 74% of small businesses say their time to respond has either increased or stayed the same.
- B. 91 % of small businesses say their time to respond has increased.
- C. 22% of small businesses say their time to respond has decreased.
- D. 36% of small businesses say their time to respond has stayed the same.

Correct Answer: A

Explanation: According to a research report by Cisco and Ponemon Institute¹, only 26 percent of small businesses said their time to respond to a cyberattack has decreased in the past 12 months. The rest said their time has either increased or stayed the same.

QUESTION 3
