-  **800,000+** Satisfied Customers

QUESTION 1

How does Vagrant run virtual machines?

- A. Vagrant uses a vagrant-specific hypervisor called VagrantVM.
- B. Vagrant has to be run within a running virtual machine which is not controlled by Vagrant.
- C. Vagrant ships with an embedded version of VirtualBox.
- D. Vagrant uses so-called providers which control external hypervisors such as VirtualBox.
- E. Vagrant generates virtual machine images but does not provide a mechanism to run them.

Correct Answer: D

QUESTION 2

Which of the following tasks are achievable using docker-machine? (Choose THREE correct answers)

- A. Start and stop Docker containers on remote Docker hosts.
- B. Set environment variables to configure the docker command.
- C. Install a new Docker host in a virtual machine.
- D. Migrate running containers from one Docker host to another.
- E. Open an interactive Shell on a remote Docker host using an SSH connection.

Correct Answer: BCE

QUESTION 3

Which of the following values stems from the Agile Manifesto?

- A. Processes and tools over individuals and interactions.
- B. Contract negotiation over customer collaboration.
- C. Comprehensive documentation over working software.
- D. Predictability and long-term planning over flexibility and adaption.
- E. Responding to change over following a plan.

Correct Answer: E

QUESTION 4

How is cloud-init integrated with a managed system image?

- A. cloud-init provides the cloud-init-worker command which has to be invoked periodically within the running instance.
- B. cloud-init provides systemd units which must be included in several stages of the booting process of the instance.
- C. cloud-init provides its own startup mechanism which replaces the instance's original init system, such as systemd.
- D. cloud-init provides a Linux kernel module that must be included and loaded in the instance's initramfs.
- E. cloud-init provides the cloud-init-daemon service which is launched during startup and keeps the instance in sync with the desired configuration.

Correct Answer: B

QUESTION 5
