### QUESTION 1

Your company has a public website that is hosted on Microsoft SharePoint Online. The Marketing department would like to create an FAQ on the public website. What should you do first?

- A. From the SharePoint Online Administration Center, create a private site collection.
- B. From the public website Site Settings page, create a page.
- C. From the SharePoint Online Administration Center, create a public website.
- D. From the public website Site Settings page, create a site content type.

Correct Answer: B

---

### QUESTION 2

You are using the Microsoft Directory Synchronization Tool (DirSync) to populate an Office 365 directory with users from an on-premise directory. You need to synchronize the directories. Which two actions can you perform to achieve this goal? (Each correct answer presents part of the solution. Choose two.)

- A. Run the Microsoft Online Services Directory Synchronization Configuration Wizard on the DirSync computer. Select the Synchronize directories now check box before completing the wizard.
- B. From the DirSync computer, run the Redo-ProvisionGroup Windows PowerShell cmdlet.
- C. In the User Management section of the Office 365 Portal, select the Force directory synchronization option
- D. From the DirSync computer, run the Start-OnlineCoexistenceSync Windows PowerShell cmdlet.

Correct Answer: AC

---

### QUESTION 3

Your company has an Office 365 E3 subscription. An Office 365 user installs the current version of Microsoft Office on a client computer. In the Office 365 Portal, you assign an Office license to the user. One month after installing Office, the user can only open and view Office documents on the client computer but can no longer edit or save the documents. You need to ensure that the user can save and edit documents on the client computer by using the Office desktop applications.

What should you do?

- A. Install the Office 365 Sign-in Assistant on the client computer.
- B. Install the Office Customization Tool.
- C. Upgrade the Office 365 subscription to E4.
- D. Reinstall Office.

Correct Answer: A

---

#### QUESTION 4

Your company has an Office 365 E3 Plan subscription with 60 licenses. You import and license all 60 users in your Office 365 directory. How much Microsoft SharePoint Online storage space does the subscription provide?

- A. 30 GB
- B. 40 GB
- C. 60 GB
- D. 70 GB

Correct Answer: B

---

#### QUESTION 5

Your company has a Microsoft SharePoint Online environment that does not currently have a public website. You need to create a public website by using SharePoint Online. What should you do?

- A. From the Site Collections area of the SharePoint Online Administration Center, create a public website.
- B. Create a site collection. In the site settings of the root site, activate the Public Website feature.
- C. Create a site collection. In the Site Collections Administration Center of the root site, activate the Public Website feature.
- D. Create a site collection. In the site settings of the root site of the site collection, under Site Collection Administration, select the Public Website option.

Correct Answer: A
