QUESTION 1

Your company has a main office and a branch office. Both offices are connected directly to the Internet. The branch office Internet connection has limited bandwidth. The company deploys Microsoft Lync Online. You need to ensure that branch office users can use only the instant messaging feature of Lync Online and cannot connect to audio or video conferences. What should you do?

A. From the Office 365 Portal, modify the user properties of each branch office user.

B. From the Office 365 Portal, configure the license settings of each branch office user.

C. On the branch office firewall, block all outbound traffic on port 5061.

D. Deploy only the Microsoft Lync 2010 Attendee client to the branch office users.

Correct Answer: A

QUESTION 2

Your company has an Office 365 subscription. All user mailboxes are hosted on Microsoft Exchange Online. You need to assign the minimum permissions necessary to ensure that an Office 365 administrator can create custom administrator roles for several regional help desk technicians. The custom roles will be used to manage Exchange Online. To which role or role group should you assign the administrator?

A. Records Management

B. Service administrator

C. Password administrator

D. Recipient Management

E. Global administrator

F. Help Desk

G. UM Management

H. Organization Management

Correct Answer: E

QUESTION 3

An Office 365 user has a primary SMTP address of userl@contoso.com with an alias of userl@tailspintoys.com. The user receives an excessive amount of unsolicited commercial email (spam). You add userl@contoso.com to the Microsoft Forefront Online Protection for Exchange (FOPE) Administration Center as a monitored address. The user continues to receive an excessive amount of spam. You need to reduce the amount of spam received by the user. What should you do?

A. In FOPE, add .userl@tailspintoys.com as an alias for the userl@contoso.com account.

B. Enable tailspintoys.com as an active domain.

C. Create a Microsoft Outlook rule that redirects all spam messages to the Junk Mail folder.

D. Enable contoso.com as an active domain.

Correct Answer: A

QUESTION 4

You need to assign the minimum permissions necessary to ensure that an Office 365 administrator can monitor service health but cannot reset user passwords or modify user groups. Which role should you assign?

A. User

B. Service Support Admin

C. Tenant Admin

D. User Account Admin

E. Billing Admin

F. Help Desk Admin

Correct Answer: B

QUESTION 5

You need to prevent Office 365 users from changing their display names by using Outlook Web App. What should you do?

A. Modify the default role assignment policy.

B. Modify the default email address policy.

C. Run the Set-MsolCompanyContactInformation Windows PowerShell cmdlet.

D. Run the Set-MsolUserPrincipalName Windows PowerShell cmdlet.

Correct Answer: A
