QUESTION 1

You are using dual monitors on a Windows 8.1 computer. You want to move system tray to the secondary monitor. Which Display option in Control Panel should you select?

- A. Make this my main display
- B. Landscape orientation
- C. PC Screen only
- D. Extend desktop to this display

Correct Answer: A

QUESTION 2

This question requires that you evaluate the underlined text to determine if it is correct.

Redundant Microsoft Azure applications are able to meet increased demand with consistent results in acceptable time windows.

Review the underlined text. If it makes the statement correct, select "No change is needed". If the statement is incorrect, select the answer choice that makes the statement correct.

- A. No change is needed
- B. Highly Available
- C. Fault Tolerant
- D. Scalable

Correct Answer: D

Scalable applications are able to meet increased demand with consistent results in acceptable time windows.

When a system is scalable, it scales horizontally or vertically to manage increases in load while maintaining consistent performance. In basic terms, horizontal scaling adds more machines of the same size (processor, memory, bandwidth)

while vertical scaling increases the size of the existing machines.

QUESTION 3

Your sister is taking a video editing class at school. She purchased a 2-TB USB hard drive to store video files. She

wants to connect it to her Windows 10 computer at home. Video file will exceed 5 GB in size.

You need to prepare the new hard drive by formatting it with the appropriate file system.

Which file system should you choose?

- A. FAT
- B. HFS
- C. NTFS
- D. FAT32

Correct Answer: C

QUESTION 4

Match each type of malware to its definition.

To answer, drag the appropriate malware type from the column on the left to the definition on the right. Each malware type may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view

content.

NOTE: Each correct selection is worth one point.

Select and Place:

Malware type	Answer Area
Virus	tracks a user's computer usage
Spyware	sends copies of itself to other machines
Worm	spreads when an executable is initiated by a user

Correct Answer:

Malware type

Answer Area

tracks a user's computer usage

Spyware

sends copies of itself to other machines

Worm

spreads when an executable is initiated by a user

Virus

QUESTION 5

This question requires that you evaluate the underlined text to determine if it is correct.

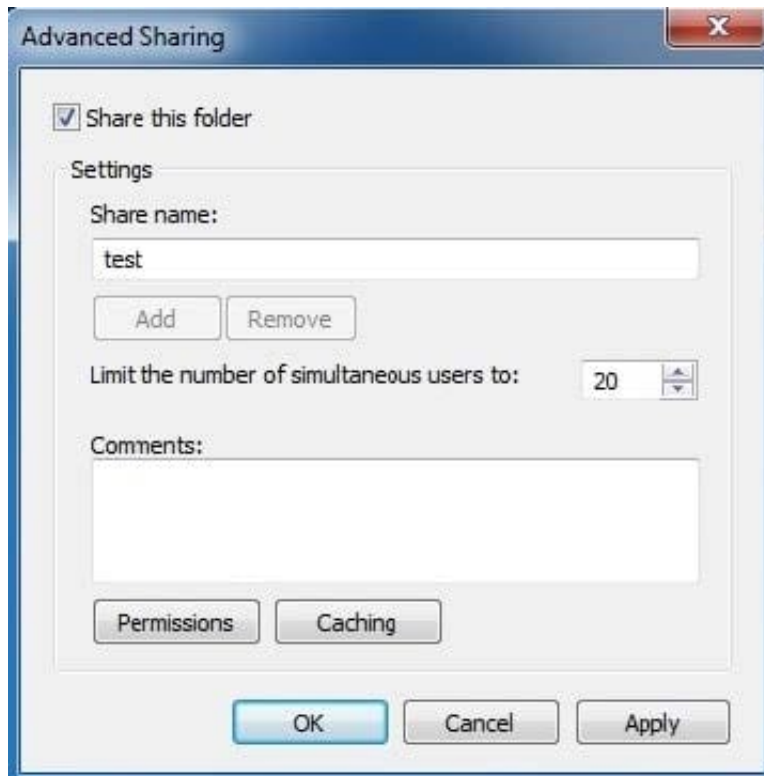

You have a Windows 8.1 computer in a WorkGroup. To share the C:\Work folder and make it available to offline users, you need to use the "public" share option. Instructions: Review the underlined text. If it makes the statement correct,

select "No change is needed". If the statement is incorrect, select the answer choice than makes the statement correct.

- A. No change is needed
- B. advanced
- C. HomeGroup
- D. basic

Correct Answer: B

In the advanced sharing dialog box Click on "Caching" button. In "Offline settings" dialog box, you can set up caching for files and programs which are offline.

You have the following options:

i) Only the files and programs that users specify are available offline: If you select this option then, users specify the files and programs which can be accessed offline. It is the default option. ii) No files or programs from the share are available

offline: If you select this option then, caching will be turned off. iii) All files and programs that users open from the share are automatically available offline: If you select this option then, caching is turned on for all files and programs and they can be accessed offline. Check option "Optimize for performance".
