QUESTION 2

You are setting up the networking for a single-site motel. For three different classes of users, you need to specify the most privileged network segment each can access.

Match each network to the class of users that cam access it.

Instructions: To answer, drag the appropriate network from the column of the left to the class of users on the right. Each network may be used once, more than once, or not at all. Each correct match is worth one point.

Select and Place:

Network		Answer Area	
Private network		Guests	Network
Public network		Employees	Network
Extranet		Business Partners	Network

Correct Answer:

Network		Answer Area	
		Guests	Public network
		Employees	Private network
		Business Partners	Extranet

*

Guest have only public access.

*

Only the Employees have access to the private network.

*

An extranet is a private network that uses Internet technology and the public telecommunication system to securely share part of a business\\\'s information or operations with suppliers, vendors, partners, customers, or other businesses. Reference: http://en.wikipedia.org/wiki/Extranet

QUESTION 3

What are two ways to lower the risk of a virus or malware infection? Choose two.

A. Enable the Windows firewall

B. Use only HTTPS while web surfing

C. Keep the system updated

D. Install a download manager

Correct Answer: AC

QUESTION 4

You have several Windows 8.1 Pro computers in your college dorm.

You want to share music library files across these computers in a simple way by using a single password for access.

What should you do?

A. Share the folder with the Everyone group

B. Change the permissions of all music files to Everyone read

C. Share the music library through a HomeGroup and join each computer to it

D. Rename each computer to a single, common name and enable the Administrator

Correct Answer: C

A homegroup is a group of PCs on a home network that can share devices (such as printers), and libraries (such as your Documents, Pictures, Music, and Video libraries). Using a homegroup makes sharing easier. Your homegroup is protected with a password, which you can change at any time.
