### QUESTION 1

You have created graphic that you will be using on the Web. The graphic includes transparent areas. You want the fully transparent pixels to remain transparent, and you want to blend partially transparent pixels with a color. Which optimization options should you choose?

- A. select transparency, and select a matte color
- B. deselect transparency, and select a matte color
- C. select transparency, and set the matte color to None
- D. deselect transparency, and set the matte color to None

Correct Answer: A

---

### QUESTION 2

What is the purpose of setting a pixel aspect ratio for an image?

- A. to draw perfect squares or circles with the Marquee tool
- B. to constrain the proportions of an image when it is scaled
- C. to ensure that the resolution of the image is appropriate for printing
- D. to compensate for scaling when the image is incorporated into video

Correct Answer: D

---

### QUESTION 3

You are trying to lighten only the darkest shadows in an image by choosing Image > Adjustments > Shadow/Highlight. You notice that lighter areas are being affected as well. What should you do?

- A. increase the Radius setting
- B. decrease the Radius setting
- C. increase the Tonal Width setting
- D. decrease the Tonal Width setting

Correct Answer: D

---

### QUESTION 4

You have drawn a patch in your image. In the Paths palette, the path name is Work Path. What happens if you deselect Work Path and draw a new path?

- A. The new path is added to Work Path.
- B. A new path called Work Path 2 is created.
- C. A single path component is created from all overlapping components.
- D. The original Work Path is deleted, and the new path becomes Work Path.

Correct Answer: D

---

#### QUESTION 5

You have created several custom contours for Drop Shadow effects. You want to save the custom contours as a set while maintaining the default contours. What should you do?

- A. from the Styles palette menu, choose Save Styles
- B. from the Layer palette menu, choose New Layer Set
- C. in the Preset Manager dialog box, select the contours and click on Save Set
- D. while editing contours in the Layer Style dialog box, choose Save Contours from the fly-out menu.

Correct Answer: C
