QUESTION 1

You have a CQ instance configured to use LDAP authentication. In the LDAP configuration file you see the parameter "com.day.core.CRXLoginModule sufficient;". What is the purpose of this parameter?

- A. It means that if CRX can authenticate a user with the CRXLoginModule, the user is authenticated successfully; else CRX uses the next login module.
- B. It means that if authentication fails with the CRXLoginModule, the complete authentication fails.
- C. It means that after logging in successfully, user credentials will be copied automatically to CRX.
- D. It means that the authentication will use a callback implementation.

Correct Answer: A

QUESTION 2

Which service property does an Event Subscriber need to subscribe to an Event Handler in the OSGi Event Admin service?

- A. event.type
- B. event.name
- C. event.title
- D. event.topic

Correct Answer: D

QUESTION 3

How do you create a configuration for an OSGi bundle within CRX that is specific to only the author instance?

- A. Add a property called "run_mode" to the node sling:OsgiConfig and assign it the value "author".
- B. Use the CRX browser to create a folder in /apps/myproject called "author" and then create a new node and select "nt:unstructured" as the node type.
- C. Use the CRX browser to create a folder in /apps/myproject called "author" and then create a new node and select "sling:OsgiConfig" as the node type.
- D. Use the CRX browser to create a folder in /apps/myproject called "config.author" and then create a new node and select "sling:OsgiConfig" as the node type

Correct Answer: D

QUESTION 4

You want to use a different page properties dialog instead of the one out of the box. How do you configure it?

- A. Create a dialog in the page-component folder referenced by the template definition via sling:resourceType and name it "dialog".
- B. Create a dialog in the template definition node and name it pageProperties.
- C. Create the dialog in the template definition node, name it "dialog" and add a property xtype with the value pageProperties.
- D. Create the dialog in the foundation\\'s page-component node and name it the same as your template definition.

Correct Answer: A

QUESTION 5

Which kind of HTTP requests are logged by default in the Recent Requests tab of the Apache Felix Web Console?

- A. Requests made to CQ pages.
- B. Requests related to the Apache Felix Web OSGi Console.
- C. Requests made to the installed bundles that are used by CQ pages.
- D. All the requests made to CQ instances.

Correct Answer: D
