QUESTION 1

Which three statements about Multi Site Manager, Blueprint, and Live Copy functionality are true?

- A. Live Copy of a particular Blueprint inherit Rollout configuration is configured on a Blueprint
- B. Immediate children of Multi Site Manager (MSM) Blueprint root page are language branches.
- C. Blueprint can have one or more Live Copies.
- D. Live Copy can inherit from multiple Blueprints.

Correct Answer: C

QUESTION 2

A company's news media website becomes unresponsive during an off-peak time. The AEM team investigates and identifies a DoS (Denial of Service) attack.

Which two security measures should the architect use to reduce the chances of another attack? (Choose two.)

- A. Change the passwords for default out-of-the box users (admin, author)
- B. Uninstall all sample content and users that ship out of the box with AEM
- C. Disable the default selectors .feed.xml and .infinity.json
- D. Implement a Dispatcher filter to allow only known selectors

Correct Answer: CD

QUESTION 3

An architect is helping a multi-national news company design its project and determine requirements. The functionality requires several external feeds to display breaking news and live scores for major sporting events.

What is the most important factor for the architect to consider when meeting the performance requirements?

- A. The authentication requirements from each feed
- B. The number of JCR nodes each feed item requires
- C. The import frequency of the feed
- D. The payload type in which the feeds are returned

Correct Answer: A

QUESTION 4

Which three tasks can users achieve with AEM Dispatcher? (Choose three.)

- A. Provide load balancing
- B. Poll AEM for content invalidation
- C. Secure AEM application
- D. Cache HTML content

Correct Answer: ACD

QUESTION 5

During discovery of business requirements, an architect learns that some of the business requirements cannot be accomplished using standard out-of-the-box AEM components.

Which requirement can be achieved with out-of-the-box components?

- A. Display the current temperature for a given location
- B. Create an image carousel from a user-selected number of pages
- C. Display a Google Maps interactive map for an authored location
- D. Display the top X requested pages in a site

Correct Answer: C
