QUESTION 1

On your OS X computer, you want the Finder to display filename extensions by default.

How can you configure this setting?

- A. Choose Show View Options from the View menu in the Finder, and select the option "Show all filename extensions."
- B. Choose Preferences from the Finder menu, click Advanced, and select the option "Show all filename extensions."
- C. Control-click anywhere on the Desktop, select Preferences from the pop-up menu, and select the option "Show all filename extensions."
- D. Choose Get Info from the File menu; click the disclosure triangle next to Name and Extension, deselect "Hide extension," and click Change All.

Correct Answer: B

QUESTION 2

You started up your Mac from its OS X Recovery partition, and you need to repair the hard disk.

Which procedure should you use?

- A. In the OS X Utilities window, click Select Volume, click Continue, select the hard disk, and click Verify and Repair.
- B. Quit the Recovery app, then open Disk Utility from the /Applications/Utilities/ folder on the OS X Recovery partition, select the hard disk, and click Repair Disk.
- C. Select Disk Utility in the OS X Utilities window, click Continue, select the hard disk, and click Repair Disk.
- D. Quit the Recovery app, open Disk Utility from the /Applications/Utilities/ folder on the Macintosh HD partition, select the hard disk, and click Repair Disk.

Correct Answer: C

QUESTION 3

How do you start up a Mac in Safe Mode?

- A. Hold down Command-Option-P-R during startup.
- B. Start up from the OS X Recovery partition, then choose Safe Boot from the Startup Disk menu.
- C. Hold down Shift during startup.
- D. Open Terminal, type shutdown -safe, press Return, then restart the Mac.

Correct Answer: C

QUESTION 4

On a Mac, you connect to a server and then open System Preferences. In the screenshot, click the icon of the preference pane where you configure OS X to connect to the same server automatically each time you log in.
