### QUESTION 1

If you click Delete User in the dialog shown above, what will happen to James White's home folder?

- A. "Deleted" will be appended to the home folder name, and its permissions will be changed to allow administrator user access only.
- B. "Deleted" will be appended to the home folder name, and it will be archived in Time Machine in a compressed and encrypted file.
- C. It will be deleted immediately, without being moved to the Trash.
- D. It will be moved to the Trash.

Correct Answer: C

---

### QUESTION 2

Which password policy CANNOT be set for user accounts in OS X Server?

- A. Password must differ from the last three passwords used.
- B. Password must contain both uppercase and lowercase letters.
- C. Password must differ from all passwords used in the past year.
- D. Password must be reset at a specified time interval. E. Password must contain a character that is not a letter or a number.

Correct Answer: C

---

### QUESTION 3

Which procedure will permit only the Marketing group to access a website hosted on OS X Server?

- A. Using Server app, double-click the website from the list of websites, add a realm, and enable Allowed Access for the Marketing group.
- B. In Finder, edit the permissions of the site folder to Read-only for the Marketing group, and No Access for the everyone group.
- C. In Finder, edit the permissions of the site folder to Read/Write for the Marketing group, and No Access for the everyone group.
- D. Using Server app, double-click the website from the list of websites, and select the Marketing group from the Who Can Access menu.

Correct Answer: D

---

**QUESTION 4**

Why might you prefer to shut down and then start up a Mac you are troubleshooting, rather than simply selecting Restart from the Apple menu?

- A. Because OS X archives errors from the session to the log only during a shutdown.
- B. Because the Mac does a full POST on startup only after a shutdown.
- C. Because OS X performs disk checks on startup only after a shutdown.
- D. Because OS X loads a clean user session on startup only after a shutdown.

Correct Answer: B

---

**QUESTION 5**

You configured the Time Machine service on a computer with OS X Server to store backup data on the Data volume. Later you configure the service to store the backup data on a larger volume named Backup Data.

How is the backup data handled after the switch to the new backup volume?

- A. The next time users back up, new and changed files are backed up to the new volume, along with aliases pointing to the data on the old volume.
- B. The next time users back up, all their files are backed up to the new volume.
- C. Users are presented with a dialog asking which volume they want to use to store their backup data.
- D. OS X Server copies the existing backup data from the old volume to the new volume.

Correct Answer: B
