#### QUESTION 1

Within SAS Data Integration Studio's SQL Join transformation, the Validate Expression button is located in:

- A. a Where clause definition
- B. an Expression Builder window
- C. a field Expression definition
- D. a Subquery definition

Correct Answer: B

---

#### QUESTION 2

Which statement is FALSE regarding foreign keys?

- A. A foreign key is one or more columns that are associated with a primary key or unique key in another table.
- B. A table can have zero or more foreign keys.
- C. A foreign key cannot exist without an associated primary or unique key.
- D. A table can have only one foreign key defined.

Correct Answer: D

---

#### QUESTION 3

Which of the following are SAS Data Integration Studio job deployment types? (Choose two.)

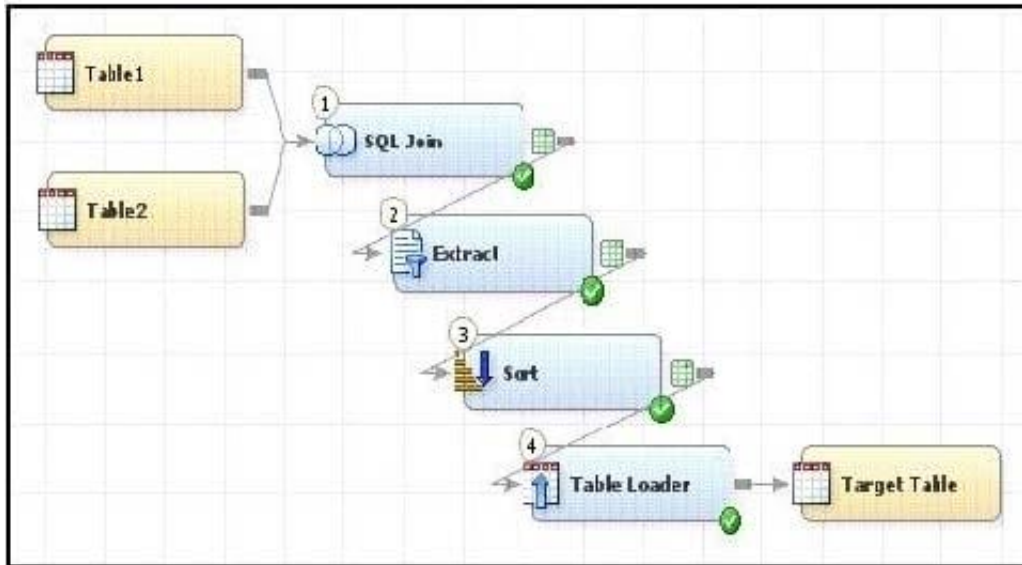

- A. a Web service
- B. a SAS Stored Process
- C. a Java Runtime Process
- D. a SAS Information Map that is accessible in SAS Web Report Studio

Correct Answer: BD

---

#### QUESTION 4

In the following display, can status handling be enabled for both the Extract transformation and the Sort transformation?

- A. Yes. The Return Code Check transformation can be added to the job flow immediately following the Sort transformation - the Status Handling tab in this Return Code Check transformation properties can then establish the desired status handling for both the Extract and Sort transformations.
- B. No. Both the Extract and the Sort transformations do not have a Status Handling tab in their corresponding properties window, therefore it is not possible to establish status handling for these transformations.
- C. Yes. The Return Code Check transformation can be added to the job flow twice, once immediately following the Extract, and again immediately following the Sort - the Status Handling tab in each of the Return Code Check transformations properties can then establish the desired status handling.
- D. Yes. The status handling tab in the job properties window will allow you to select which transformation (or even several transformations) that you want to define status handling for.

Correct Answer: C

## QUESTION 5

The profile reports generated in dfPower Profile jobs are viewed:

- A. in dfPower Profile (Viewer)
- B. in the Reports tab of dfPower Profile (Configurator)
- C. in any HTML viewer
- D. in any text viewer

Correct Answer: A
