QUESTION 1

Given the following authorization setup:

-Mary is a direct member of DeptA and DeptB

-

Library Sales2 has an explicit RM denial for DeptA.

-

Library Sales2 has an explicit RM grant for DeptB. Which statement is true?

A.

Mary can see Library Sales2.

B.

Mary cannot see Library Sales2.

C.

Mary can see Library Sales2 for data associated with DeptB only.

D.

Mary can see Library Sales2 for data flagged as PUBLIC only.

Correct Answer: B

QUESTION 2

A platform administrator used operating system commands to backup the metadata repositories and repository manager in a SAS environment. When the platform administrator attempted to restore the SAS environment, the backup files were unusable. What is the most likely cause of the backup files being unusable?

A. The metadata server was stopped when the backup was taken.

B. The metadata server was Online when the backup was taken.

C. The metadata server was only paused to an Offline state when the backup was taken.

D. The metadata server configuration file omaconfig.xml is not included in a backup initiated by operating system commands.

Correct Answer: B

QUESTION 3

To support seamless access to database servers or SAS processing servers, a login for outbound use may be defined in the metadata. An outbound login must include:

- A. a userID.
- B. a user ID and password.
- C. a user ID and authentication domain.
- D. a user ID, password, and authentication domain.

Correct Answer: D

QUESTION 4
