QUESTION 1

Which statement is true regarding a synchronous workflow that uses temporary data and is called using a call workflow task in an asynchronous workflow?

- A. A synchronous workflow cannot be called from an asynchronous workflow.
- B. Since the synchronous workflow was called from an asynchronous workflow, the workflow will use permanent data.
- C. There is no user interacting with the data therefore there is no temporary data, and in this case the workflow will fail.
- D. A synchronous workflow cannot be called using a call workflow task; it can only be called from a state transition sub action.

Correct Answer: B

QUESTION 2

What is the purpose of the special value \$\$today\$\$ in a field filter?

- A. it will filter based upon the current date
- B. it will filter based upon the last 24 hours
- C. it will filter based upon the day of the week
- D. it will filter based upon the date the query was created

Correct Answer: A

QUESTION 3

Which statement is true regarding the inclusion of Control Number in a Data Integrator template?

- A. It should always be included.
- B. It should only be used to update existing records.
- C. It prevents the import process from updating records.
- D. It is necessary to guarantee the creation of unique records.

Correct Answer: C

QUESTION 4

What happens if the Reverse Association option on the association filter is set to Yes?

- A. It returns only those records with the reverse association type on the context record.

- B. It returns the records with the association type on either end of the association to the context record.
- C. It returns the records with the association type only if a reverse association is defined in the Data Modeler.
- D. It returns the records with the association type only if a reverse association is defined in the Association Manager.

Correct Answer: B

QUESTION 5

A portal change has been requested to add two sections, and one of the sections should display collapsed.

Given that the impacted portal is open in Portal Builder, which process(es) could be used?

- A. Only a user can determine which portal sections are collapsed.
- B. This scenario is not feasible because portal sections cannot collapse.
- C. Log-in as the system user in order to make the change. Select the Portal Sections library, place a check mark in the select box next to the two sections which are to be added, and click the Add To Portal button. For the section that is to be displayed collapsed by default, in the Portal Layout View select the Collapsed By Default check box. Select the Save button.
- D. Select the Portal Sections library, place a check mark in the select box next to the section which is to be added, and click the Add To Portal button. Place a check mark next to the next section to be added, and click the Add To Portal button. For the section that is to be displayed collapsed by default, in the Portal Layout View select the Collapsed By Default check box. Select the Save button.

Correct Answer: D
