A. A user can have only one Notes certificate.

B. A user can have multiple Notes certificates.

C. A user can have only one Internet certificate.

D. A user can have multiple Internet certificates.

E. A user can have only two Internet certificates: one for signing mail and one for encrypting mail.

Correct Answer: AD

QUESTION 2

What two statements are true regarding IBM Notes Smart Upgrade? (Choose two.)

A. Policies are required to use Smart Upgrade.

B. Users can choose File > Tools > Notes Smart Upgrade to begin the upgrade process.

C. The Smart Upgrade Governor can be used to control the Maximum Concurrent Downloads.

D. The Smart Upgrade process requires the user to have administrator privileges to their local machine.

E. Update kits are automatically added to the Smart Upgrade application when they become available at the IBM developerWorks site.

Correct Answer: BC

QUESTION 3

What is the easiest method to disable read return receipts for all incoming emails on a server?

A. Advise users to disable return receipts in their Mail Preferences.

B. Read return receipts are part of the SMTP and cannot be disabled.

C. Disable the "Return receipts" option in the Configuration Settings document of the server.

D. Enforce the "Disable return receipts" setting in a mail settings policy and apply to all users.

Correct Answer: C

QUESTION 4

Trisha has created an ID vault on one of the servers that is not the IBM Domino Directory Administration server. Why is she unable to see the Vault document and other vault-related documents in the Domino Directory?

A. She should refresh the view for the documents to show up immediately.

B. Those documents will not be added to the Domino Directory until the AdminP task is run manually.

C. Those documents will not be added to the Domino Directory until they have replicated from the Domino Directory Administration server.

D. Those documents will not be added to the Domino Directory until they have replicated from the hub server, which does not have to be the Domino Directory Administration server.

Correct Answer: C

QUESTION 5

The administrator has been asked to move a user\'s mail file because the user has moved to a different office. When the mail file is moved, the Administration Process first moves it to the new server, then issues a request to delete the old mail file from its original mail server. Which statement defines what must be performed to complete the deletion process?

A. The administrator must approve this mail file deletion.

B. The mail file owner must approve the old mail file deletion.

C. The mail file owner must accept the changes when prompted.

D. The administrator must notify the mail file owner to accept the deletion.

Correct Answer: A
