- D. In IBM Domino Designer, anyone with Designer level access or higher can see and run a private agent.

Correct Answer: D

---

#### QUESTION 4

Mary is using the OSGI console to debug an application and has `ENABLE_BREAK=1` set in the client notes.ini. What does this parameter do?

- A. runs the application one line at a time
- B. forces a Java core if a JVM failure is encountered
- C. enables the break points that Mary wrote into the application
- D. bypasses any external calls in the application being debugged

Correct Answer: B

---

#### QUESTION 5

Julianna wants to add a calendar view to her application to display the completion dates of the documents in her application.

What must Julianna do, in addition to setting the view type to calendar, to accomplish this?

- A. Julianna should create a view that the selection formula is based off of the completion date of the document.
- B. Julianna can use any existing view in the database by just changing the view property "style" to be calendar.
- C. Julianna will need to make sure that the view only contains valid calendar events as that is all that can be displayed in a calendar view.
- D. Julianna should create a view that has the first column contain a valid date and time value based on the completion date of the document in ascending order.

Correct Answer: D
