QUESTION 1

John has a database that replicates across two servers with documents that are created and updated regularly on each server.

Which two document ID components will always return the same value for a given document across both replicas of the database? (Choose two.)

- A. UNID
- B. NoteID
- C. Serial Number
- D. Sequence Number
- E. Database Replica ID

Correct Answer: AE

QUESTION 2

Mary's mobile application will be accessed using a Web browser using HTTPS.

What must Mary do to ensure the browser will allow access to her application site?

- A. Import a trusted root certificate into the application.
- B. Create an SSL keyring using a third-party trusted certificate.
- C. Ensure the application host is defined in a Domain Name Server.
- D. Nothing, Domino provides this service without additional configuration.

Correct Answer: B

QUESTION 3

Steven has taken over as the designer for an existing application and has received reports of incorrect data in a particular field in documents. He wants to find all the places in the database that access that field. How would he accomplish this search?

- A. Steven should create a full text index and search the index for the field name.
- B. Steven should use the Eclipse search perspective and search for the field name while the database is opened in this perspective.

- C. Steven should use the Eclipse search functionality and search for the field name on the File Search tab and choose selected resource as the scope.
- D. There is no way to accomplish this automatically. Steven will need to open each design element and search for the field name in each design element.

Correct Answer: C

QUESTION 4

Charles has decided that he will add highlighting to a navigator object and has chosen the option "Highlight when clicked". What will be the result of choosing this option?

- A. The object remains highlighted while the user clicks the object.
- B. The object remains highlighted until the user clicks another object.
- C. The object remains highlighted until the user double-clicks the object.
- D. The object remains highlighted while hovering over the object until the user clicks on the object.

Correct Answer: B

QUESTION 5
