D. Portlets available for download should not be used in the production environment.

Correct Answer: C

**QUESTION 3**

On an ongoing basis, Ken wants to track status messages from an application that he is writing. Which one of the following options should he use as a best practice to make the status messages available?

A. He should write messages to to SystemOut.log since it is the easiest to implement.

B. He should write them to SystemError.log since they are status messages and could be considered errors.

C. He should use the standard Java logger at an "info" level since "info" is the default trace level for IBM WebSphere Portal server.

D. He should use the standard Java logger at an "error" level since they are status messages and could be considered errors.

Correct Answer: C

**QUESTION 4**

Steve wants to hide a menu item in the action menu. This menu item may be needed for later use. What is the best way

to accomplish this?

A. Declare the menu item as not visible in the server-side feed. Declare the menu item as visible in the client-side code, and then stop and restartthe custom theme application.

B. Declare the menu item as visible in the server-side feed then override in the client-side\\'s visibilityFn.

C. Use the IBM WebSphere Integrated Solutions console to edit the Dynamic Content Spot to update the menu definition and restart the customtheme application.

D. Update the shelfActions.json using the WebDAV located inside the menuDefinitions folder and then register the changes inside the theme.js filelocated inside the js folder.

Correct Answer: B

**QUESTION 5**

Carl is trying to create a theme based on a modularized IBM WebSphere Portal theme. He is ready for deployment, but is unsure of the structure he needs to use to accomplish this. What would be the proper deployment structure for this theme?

A. Create an ZIP file that contains one WAR file containing the dynamic content of the theme and one JAR file containing a .content filereferencing the static content.

B. Create a custom version of the dynamic content from the modularized theme as a new EAR file and a custom version of the static content bycreating a folder in the file store for it.

C. Create a WAR file that contains an ZIP file containing an EAR file that includes both static and dynamic content.

D. Create a folder for the theme in the file store, and create a WAR file containing an exact copy of this theme. All associations between static anddynamic content will be made once both are associated by sharing similar context roots.

Correct Answer: B
